The Stewards, having received a report from the Clerk of the Course (Doc 3.11), having summoned and heard the Crew members and the Team Manager, Mr. Michal VALTR, have considered the following matter and determine the following:

Facts The crew of Competitor No. 614 stopped next to a number of gallons with liquid that had been left shortly beforehand by an unknown person.

Offence: Alleged breach of FIA 2026 CCRSR Art. 49.2, Art. 54.1 and FIA 2026 ISC Art. 12.2.1.f.

Decision: **No further action.**

Reason: The Stewards heard from the Team Manager and the crew members. During the hearing, the Team Manager stated that the crew noticed a technical issue around KM 298 of SS2 and stopped alongside the selective section. A noise was coming from the truck which they could not identify. The mechanic exited the vehicle at that location and walked around the truck, but no issues were observed. The crew stated that the gallons with liquid that were apparently left at the location were not noticed by the crew. The crew further stated that there was sufficient fuel on board the truck and that there was no intention whatsoever to refuel alongside the selective section.

Despite the fact that it is unusual that fuel was left in the middle of the desert and that the crew stopped in close proximity to these containers, there is insufficient evidence to establish that the crew committed a breach.

The Stewards therefore decide to take no further action.

Competitors are reminded that they have the right to appeal certain decisions of the Stewards, in accordance with Article 15 of the 2026 FIA International Sporting Code and Chapter 5 of the FIA Judicial and Disciplinary Rules.
