AMENDMENTS TO THE SUPPLEMENTARY REGULATIONS

1/ Supplementary Regulations - 9. CATEGORIES AND CLASSES *(updated)*

In addition to FIM categories, the following Organiser's category is to be added:

ORGANISATION CATEGORY
"Malle Moto" Trophy

2/ Supplementary Regulations - 9.1 REGULATIONS OF THE "MALLE MOTO" TROPHY *(new article)*

GENERAL

This category is intended exclusively for amateur bike and quad riders who compete without any form of assistance structure during the race. Failure to comply with this requirement will result in immediate exclusion from the category.

LOGISTICS AND ALLOWED ITEMS

The Organisation will take care of transporting each rider's personal luggage between the Agadir Bivouac and the Zagora Bivouac. This luggage must not exceed the following items/limits:

- One personal luggage bag of up to 100 L.
- 3 spare tyres and 2 complete wheels.
- One work stand.
- Basic tool kit.

All this equipment must be formally handed over at the 'Malle Moto' area of the Agadir service park no later than 21:00 on 28th of September 2026.

WORKING AREA

The Organisation will provide participants in the 'Malle Moto' category with essential technical support services to facilitate vehicle maintenance throughout the event.

SPORTING

At the end of each stage, the rider must follow this mandatory procedure:

1. Hand in the timecard at the time control located at the bivouac entrance (T.C4), so that the arrival time can be recorded.
2. The rider must then collect the timecard and proceed immediately to the designated Malle Moto working area to hand it over to the area manager. The maximum permitted time between T.C4 and entry into the Malle Moto working area is 10 minutes.

CLASSIFICATION AND AWARDS

Motorcycles and quads competing in the “Malle Moto” category will race together within the FIM category, with no distinction or separation in the starting order.

Final Classification of the category will be issued, and trophy will be awarded to the first 5 riders in the category.

RULES

Riders must camp, rest, and carry out all maintenance work on their vehicles exclusively within the “Malle Moto” area.

When carrying out mechanical work, setting up camp, or moving tyres to the official BFGoodrich service point, all tasks must be performed entirely by the rider. Any external assistance is strictly prohibited. The only support permitted is mutual assistance between “Malle Moto” riders who are still competing, or assistance provided by personnel officially designated by the Organisation. Any breach of this rule will result in penalties, which may lead to disqualification.

In order to leave the “Malle Moto” area with the motorcycle, quad, or any damaged parts, the rider must inform the area manager and be accompanied by Organisation staff. This applies to:

- Refuelling or washing the vehicle.
- Leaving the area to carry out mechanical testing.
- Specialised work requiring machinery not available within the area, such as welding, machining, suspension repairs and/or tire mounting. These interventions require prior approval from the technical steward and must be carried out by the rider personally, under supervision.

Any unjustified absence or breach of the spirit of the category will result in a written report and may lead to subsequent exclusion from the challenge. If a rider withdraws from the competition, they will continue to have the right to use the area for sleeping and to access their belongings, but they will not be permitted to provide any kind of assistance to other riders of the category still in the race.
