Shakedown

The Shakedown will be conducted over two sessions. Competitors who have registered to participate, together with the session to which they have been allocated and their provisional start time, are detailed in Appendix 1.

Session 1: 08:30 – 10:45**Session 2:** 11:15 – 13:30

Running Arrangements

The Shakedown will use a single section of road, with runs conducted in alternating directions.

The first stage will be conducted East to West (E–W). Competitors will be held in a designated area beyond the stage finish until all crews have completed the E–W stage. A Sweeper Car will then clear the E–W route, following which a Safety Car will open the route in the opposite direction.

The West to East (W–E) stage will then take place. There will be no holding area at the end of the W–E stage.

Competitors will start at 30-second intervals, unless otherwise instructed by the Start Line Marshals.

The Shakedown will be untimed, although Flying Finish boards will be in position. All crews must proceed to, and stop, at the Stop Line before continuing when instructed to do so by the marshals.

Wherever practicable, competitors should remain in their seeded order throughout the Shakedown.

Servicing

No service crews are permitted at the Glengorm end of the Shakedown.

Only the crew members working directly on their own car will be permitted to undertake work on the vehicle at the Glengorm end. Any other assistance or activity involving another crew or vehicle will be considered Unauthorised Servicing.

Runs

Competitors must undertake the first run of their allocated session. Competitors may subsequently choose not to undertake further runs.

If a competitor misses a run, they may rejoin for a later run within their allocated session, subject to the instructions of the marshals and the running order.

The intention is to facilitate as many runs as reasonably possible within each session. The number of runs achieved will therefore depend on the time available and the smooth running of the session.
