

2025 Mike Nagle Rally Sprint Service Crew Instructions

Welcome to our event! We're glad you're here. Please take a moment to read this page as it's designed to help you if you need to retrieve a car off stage. No one wants to get lost or stuck.

Beware that the route to the stage contains lots of gravel, sharp turns with steep approach angles and many miles of narrow, twisting county roads. Crews with large service vehicles and/or large trailers are cautioned against using those rigs to retrieve a car off stage. If in doubt, or if you need help making alternative arrangements, please contact the Chief of Service.

All service crew must contact Chief of Service Doug Heredos when they leave to retrieve a car. He can be reached at (503)-709-0937. Please be nice to him.

Mind your speed, especially in town and around homes. 35mph max on gravel. And do be courteous to locals, we'd like to be able to come back next year. All it takes is one negative impression to make a lasting impact. We appreciate your support.
