

Briefing from Track Inspector - ISDE Argentina 2023

DAY 1/2 Blue

Here below my riding time in the different sections and some comments:

Start to CT1 Las Lomitas: 18km in 31'

CT1 Las Lomitas 5,6 km in (8'25") 10'

CT1 to TC1: 12,5km in 18'

Section quite easy with gravel roads and single track with rocks.

TC1 to ET Aeródromo: 0,1km in 1'

ET2 Aeródromo: 7,2km in (10'40") 12'

ET2 to TC2: 34km in 51'

Long transport with sand, gravel roads and some single track

TC2 to CT3 Museu: 1'

CT3 Museu: 5km in (7,50") 9'

CT3 to TC3: 29km in 44'

Gravel roads and single track with rocks.

Special remarks:

The route is marked with the official signs (arrows and circles) but also with ribbons and spray paint of the same color of the day.

As everybody can see, we are in a desert area. Sometimes there are dry river beds where the water create steps that can be dangerous. Some of them are signalled but in anycase stay focused on those situations, especially in some fast gravel roads.

Attention

At all the Time check whit service I always preview around 12'/10' for the service based on my riding time without any stops and respecting the speed limit in the open traffic roads. Pay attention at the TC "pre finish" the time is shorter compared to the previous lap.
