1. Reconnaissance Instructions

Decals will shortly be posted out together with instructions for the Tracking App and an access code which is unique to each competitor.

The decals must be displayed on the front windscreen of your vehicle when you carry out reconnaissance.

The Tracking App must also be activated whilst carrying out reconnaissance. Article 18 of the Supplementary Regulations gives further details on procedures for reconnaissance.

When carrying out reconnaissance the tracker must remain activated on the road sections between stages. This helps protect you from any possible accusations from the general public that you were speeding.

In addition you need to advise the organisers before 16 May on which days you intend to carry out reconnaissance.

An online form to enable you to do this will be found under Competitor Information on the Sportity Channel.

Anyone who has not yet provided contact details on their entry form will not receive the necessary decals and tracking code until they have provided such details. Anyone who does not do so in a timely manner may not be able to undertake reconnaissance.

Please note that hard copy road books will not be issued until the event but will be available on the relevant Sportity channel.
