NOTES FROM THE ORGANISER

1. REFUELLING BEFORE SCRUTINEERING

Competitors may refuel from their own drums/cans in a refuel location opened close to **Gate 3** (see Service Park lay-out in Sportity). A protective mat to collect any spillage must be used at all times. A minimum 6 kg fire-extinguisher and a person to operate it must come with the car.

2. TEMPORARY STRUCTURES IN SERVICE PARK

Competitors are reminded of the instructions from the Finnish Safety and Chemicals Agency on the set-up and securing of temporary light-weight structures. Please note that cargo straps together with shackles are compulsory for the fixing of ballast to the structure.

The instructions can be found from here:
