(Organizers may refund 80 % of the entry fee to those competitors who, for reasons of «force majeure», duly certified by their ASN or Rally organizer, were unable to start in the Rally.)

5. INSURANCE

5.1 TRAFFIC INSURANCE (OBLIGATORY)

All cars participating in the rally must have a valid obligatory traffic insurance towards third parties. In Finland the 'Green Card' (International Motor Insurance Card) system is applied.

For cars coming from countries outside the Green Card system and EEA-countries, a Nordic frontier insurance must be taken at the Danish, Finnish, Norwegian or Swedish border.

Traffic insurance guarantees competitor's cover for civil responsibility towards third parties.

All competitors must be able to show their Green Cards at the administrative checking. The burden of proof for a valid insurance rest solely on the competitor.

The organiser will issue third party insurance cover for foreign drivers valid on special stages for cars registered abroad. Insurance certificate together with a special sticker will be handed to the teams before the start of the Rally - during check-in. The insurance sticker must be affixed on rally car before scrutineering.

Please make sure that the organizer has up-to-date information concerning your car, to be able to take this insurance for the correct vehicle. Information needed is make, model, year of manufacture and chassis number.

5.2 INSURANCE COVERAGE

General liability insurance compensates, within the restrictions of its terms and conditions, bodily injury or material damage caused to a third party by the insured party (that is, federation or club) for which the latter is liable by law. The loss may be caused by an employee working under contract for the insured party or by a volunteer working under the insured party's assignment. The insurance also covers the organiser's liability when the insured party has organised an event, training or camp, regardless of whether an entrance fee is charged.

The insurance company will determine for the insured party the indemnification liability and amount of loss, negotiate with the party that is demanding compensation, take care of any trial and its expenses and pay for the indemnity the insured party is liable. The maximum amount of compensation in bodily injuries or material damage is €1,000,000. The insured person's deductible for each loss is €600.

5.3 LIMITATION OF INDEMNITY (FIA EHRC, Art. 21.3)

The organiser declines any liability concerning the consequences caused by any fraudulent action taken by the competitor, may this be against the rules and regulations of the rally or against the laws of the country.

Any service vehicles or reconnaissance cars, even those bearing the official identification of the organiser, may under no circumstances be considered as official participants of the rally, hence their insurance policies remain the sole responsibility of the owner.

Competitors are reminded that all vehicles (incl. scooters, mopeds, forklifts, ATVs etc.) used inside the service area must be insured and must only be used on the driveways designated for vehicles, i.e. not in spectator areas or such. Extreme care must be taken when using silent electric vehicles.

6. ADVERTISING & IDENTIFICATION

6.1 Prohibited Tobacco Advertising

For the avoidance of doubt, all tobacco advertising is prohibited from use on competition vehicles within FIA EHRC. Replica liveries from the period must be suitably modified to avoid using the full name of the tobacco company where present unless it is the original car (the exact car used with this livery).

It is the competitors own personal responsibility to ensure the legality of their vehicle livery at all times in the country where the competition takes place. Neither the organiser or the FIA are liable for any penalty, claim or conviction for any contravention of these laws.

7. TYRES

7.1 NUMBER OF TYRES & TYRE MARKING PROCEDURE

7.1.1 Eligible tyres – All Cars

The make and model of gravel tyres to use is free.

No «E» or «DOT» tyre marking is necessary for gravel rally tyres.

All gravel tyres to be used should be fitted with an FIA approved barcode*. Where this is not available on the tyre, the competitor must liaise with the FIA Eligibility Delegate at the event to obtain FIA barcode stickers solely for the purpose of tyre registration and tyre use monitoring.

**A limited quantity of FIA tyre barcodes in the correct format will be available from the FIA team at the event in scrutineering for competitors requiring them.*

7.1.2 – Number of Tyres

During all rallies classed as gravel, all competitors are limited to a **maximum of 20 gravel tyres per event** inclusive.
