Reminder on the use of tyres in the Championships

09th May 2025

Dear Autocross & Cross Car Competitors and Drivers,

We would like to remind you that the guidelines set out in article 10.5 *"Tyres (all categories)"* of the 2025 FIA European Autocross and Cross Car Championships must be followed strictly by all the drivers.

In particular, note that, Article 10.5.6 states that ***"Only the tyres bought and mounted on site can be registered for the first time except for the first Competition of the season, which can be delivered before by the tyre supplier."***, which means that only 2025 season types of tyres with RFID chip can be used during the 2025 season.

We remind you that, to promote sustainability, the tyres from the 2024 season can be used during the Warm-up sessions of the 2025 season, according to the article 10.5.3, which states that ***"Tyres not registered for this Competition can be used during the Warm-up session. They must be of the make and type defined above."***

We emphasise the importance of reading the Sporting Regulations and it is the responsibility of all competitors to know and follow the rules.

We wish you an excellent start to the season.

The FIA Road Sport Department
