If you see a triangle, be prepared to stop. The road could be completely blocked.

If you see a stopped crew and NO OK sign, you **MUST STOP** and determine if they are OK or not.

If you see a Red Cross you **MUST STOP** and assist the crew requiring help.

You are responsible for making sure the incident scene is safe for everyone.

Stop the next car and send them on to the **next** radio point with the following information:

- Car Number of the car involved, Location of the incident, How many people injured, Type of injuries, If anyone is trapped in, or under, the car, Any other information (fire, road blocked, etc.)

If you have a HAM radio, you can contact net control directly with the above information on **146.850 (-600 T88.5)** by calling "RED FLAG, RED FLAG" and your car number. Wait for a response, and follow Net Control's instructions.

If you see a radio blocker holding out a STOP sign, you **MUST STOP** at that blocker and wait for further instructions.

If you see a RED FLAG on the RallySafe unit, slow to transit speed and stop at the next radio location or an incident scene and wait for further direction.

Tool for recognizing a possible concussion

This tool does not determine whether a person has a concussion or not. It simply exists to help to increase suspicion of potential brain injury.

If there was **any** period of loss of consciousness during the crash, individual should be seen by event medical staff.

If individual has any neck pain, do not remove helmet unless trained to do so. They should be seen by event medical staff.

Are they alert and oriented? Delay in giving answer counts as incorrect answer

Outil pour détecter une commotion potentielle

Cet outil ne détermine pas si une personne a subi une commotion ou pas. Il sert simplement à éveiller les soupçons de blessure potentielle au cerveau.

S'il y a eu perte de conscience quelle qu'en soit la durée, au moment de l'accident, il faut que la victime voie le personnel médical du rallye. Si la victime a des douleurs au cou, n'enlevez pas son casque à moins d'avoir été formé pour le faire. Il faut que la victime voie le personnel médical du rallye.

La victime est-elle alerte et sensée ?

Si la victime tarde à donner la réponse,

CANADIAN ASSOCIATION FOR RALLYSport

TRAFFIC MANAGEMENT PLAN (BC)

ROCKY MOUNTAIN RALLY MAY 30 & 31, 2026

Background and Intent:

This Traffic Management Plan is for the Rocky Mountain Rally, an event that is sanctioned by the Canadian Association of Rallysport (CARS) as described in the CARS National Rally Rules (NRR's) and General Competition Rules (GCR's). This is a combined National Stage Rally and a Regional Stage Rally. The other forms of sanctioned rally events that CARS sanctions includes, Rally Sprints, Rallycrosses, Rally Schools and Test Days but none of those forms are included in the activities at the Rocky Mountain Rally.

The Rocky Mountain Rally is based in downtown Invermere, B.C. and will be held on May 30 and 31, 2026.

Stage Rally events use a combination of closed roads for the competitive stages and open public highway to transit from one competitive stage to the next, or to and from the rally headquarters/service area at the start and end of a leg. In this instance, the service area will be located in downtown Invermere, BC.

The competitive stages on closed roads are not the subject of this plan.

The transits that occur on open public highways are non-competitive use of the highway by rally vehicles. Non-registered competition vehicles can obtain a Temporary Operating Permit (TOP) from ICBC that will allow for travel on the open public highway in accordance with the following procedures.

General Procedures:

- The event will not be impeding, controlling or changing any normal traffic flow on the open public roadways.
- Entrants will be issued a route book at Registration on Thursday May 28. The route book will identify the transit portions of the event.
- Transit time allowances for each transit section have been calculated as per our written ruleset. Entrants are given this information in both the route book and on the time cards that are used to record the entrants arrival and departure at the transits. These time allowances are based on the vehicles travelling at 80% of the posted speed limit plus a further three minutes time allowance per transit section.
- Penalties will be administered on entrants that are found speeding on transits or arrive early at the end of transit destination.
- The event organisers will be tracking each entrant's location, direction of travel, speed and status through a GPS tracking system. This system is available to the public as well as to the entrants and organisers. This can be found at www.rallysafe.com.au/

- Competitors will be issued the contact information for local resources including Emergency Services, Location of nearest medical facilities and contact information for the event organizers. For the Rocky Mountain Rally this information is attached as an appendix to this document.
- Rally Vehicles will not be arranged or dispatched in convoys. Spacing of between one and two minutes between rally vehicles is maintained throughout the event and will be controlled through the use of time cards that are controlled by independent event officials.
- Entrants will be required to follow the transit routing entirely without deviation.
- Entrants will not be allowed to reroute to gas stations for refueling or to services for repair or supplies, while on transits.
- Vehicles that are issued and are operating under a Temporary Operating Permit shall not be used for Personal Conveyance beyond the area bound and defined by the event.
- Roadside signage will be placed on transits to advise the public of rally traffic in the area. These signs will be a minimum of 60cm by 60cm and shall read "Rally Traffic Ahead". These signs shall be in place during all times that the vehicles in question are using those roadways. Placing of those signs will occur prior to the first vehicle transiting and will be removed following the event. Individual locations of these signs are identified on an appendix attached.
- The distance between roadway signage shall not exceed 25 Km.

Breakdown & Recovery Procedures:

- Entrants will be instructed on vehicle breakdown procedures.
- The Transit route will be travelled by course clearing vehicle(s) at a maximum of two hours prior to the expected arrival time of the rally vehicles to identify any area specific risks.
- The transit Route will be travelled by a minimum of one course car following the passage of the last entrant's vehicle to "sweep" for any breakdowns.
- In the event that an entrants vehicle becomes immobilized on a transit, the entrant will be required to:
 - Deploy a minimum of two Hazard Warning Triangles at distances of 50 to 200 metres from the rear of the vehicle.
 - Contact the Event Officials either through cellular telephone contact, GPS communication or through other competitors, of their situation and recovery requirements.

Incident Procedures:

- All CARS licensed occupants of rally vehicles in CARS sanctioned events are trained in Basic First Aid.
- In addition to the requirements of the Motor Vehicle Act, the entrants will be required to:
 - Inform the Organizers of any incidents that involve collision with another vehicle or pedestrian.
 - Provide assistance and/or obtain assistance resources to the incident through GPS, cellular or dispatch means.
 - All entrants' vehicles will be required to carry first aid kits.
 - All entrants vehicles will be required to carry a minimum of two 5BC fire extinguishers.
 - All entrants vehicles will be required to carry a seat belt cutter and a window hammer.
 - All roadside signage will be removed immediately following the conclusion of the event.
 - Any issues that arise during the event should be directed to the Clerk of the Course, Josh Keatley (403) 9212 3846 or Deputy Clerk of the Course, Keith Morison at 403 510 5689.

Many Thanks for your cooperation. Any questions that arise from this plan should be directed to Mike Dyer, Rocky Mountain Rally organizer 403-651-5067
