RALLY GUIDE I

Attention!

*This is not an official document; it is provided for information purposes only.
Official information will be published in the Supplementary Regulations of
the competition.*

“RALLY ŽEMAITIJA” is dedicated to the memory of Tomas Savickas, the organiser of this rally (1969–2019)

Each year, the beginning of the rally celebration in Kelmė also marks a moment of remembrance for a painful loss — the unexpected passing of Tomas Savickas, the key strategist behind “Rally Žemaitija”. Having brought with him to Kelmė extensive experience as a rally driver, he passed on the racing spirit to many of his colleagues and friends. Thanks to Tomas, a once quiet town on the edge of Žemaitija became one of the most important rally centres in Lithuania, attracting some of the brightest motorsport talents from across Europe to compete, train and test their machinery.

Under Tomas Savickas' care and dedication, “Rally Žemaitija” hosted several rounds of the Latvian and Belarusian Rally Championships, whose competitors returned home with the very best impressions. T. Savickas devoted 19 years to motorsport, from 1995 to 2013, and was far more than a spectator in the rally world. Tomas became Lithuanian Rally Champion in his class no fewer than ten times, won numerous rally events and earned the title of Master of Sport. In 2004, he founded the sports club “Kelmės ASK”, became the principal organiser of “Rally Žemaitija” and a motorsport official. From 2014 onwards, he worked at almost all motorsport events held in Lithuania, and in 2018 he was granted national category status.

Dear competitors, rally teams, loyal fans, partners, volunteers, and all those for whom motorsport is more than just competition, It is with great joy and special emotion that I welcome you to NEO Rally Žemaitija 2026 — a rally which this year starts under a new name, with renewed energy and an even stronger drive forward.

The roads of Žemaitija are calling once again. They await the sound of engines, clouds of dust, the focus before the start, and that unique moment when time begins to count in seconds.

This year is special for us. Rally Žemaitija is entering a new stage and becomes NEO Rally Žemaitija. We are joined by our title sponsor, NEO — a name that for more than three decades has been associated with movement, trust and the road. This is a highly symbolic partnership, as rallying and NEO speak the same language: direction, quick reaction, teamwork, responsibility and the ability to reach the destination all matter here. From the rhythm of the city to the speed of rallying — this slogan reflects our shared journey with great precision.

This year, NEO Rally Žemaitija 2026 will once again bring together strong competitors, ambitious teams and a rally community that knows how to wait, support and create emotion. Ahead of us are special stages where it will take more than pressing the accelerator — crews will need to read the road precisely, trust the co-driver, feel the car and respect every metre of the route. Žemaitija is not easy — it has character. That is exactly what makes it so real.

May every special stage become not only a sporting challenge, but also a beautiful story worth remembering. NEO Rally Žemaitija 2026 will take place on 5–6 June.

I invite everyone to be part of this rally celebration — on the stages, in the Service Park, in front of the screens, on social media and wherever the heart of rallying beats.

Let us meet in Žemaitija — where the road speaks loudly, the gravel tells stories, and the spirit of rallying returns stronger every year.

With the warmest sporting wishes from Žemaitija, Ingrida, , Organiser of Rally Žemaitija

Greeting from the NEO Taksi Team to the Competitors, Fans and the Entire Rally Community of NEO Rally Žemaitija 2026

Dear competitors, teams, rally fans, partners and all motorsport enthusiasts,

On behalf of the NEO Taksi team, we are pleased to welcome you to NEO Rally Žemaitija 2026 — an event where the road becomes more than just a route. Here, it turns into speed, emotion, challenge, teamwork and true sporting character.

It is a great honour for us to be a partner and the title sponsor of this rally, and to become part of a community that lives through movement. For more than three decades, NEO has been on the road — growing together with Šiauliai, with people, with their journeys and their trust. Today, our journey extends even further — not only in Šiauliai and the major cities of Lithuania, including Vilnius, Kaunas and Klaipėda, but also as the NEO name begins to resonate not only with the rhythm of the city, but also with the speed of rallying.

Rallying and NEO have a great deal in common. On the road, precision, quick reaction, reliability and a team you can trust are essential. Every journey has a destination, every corner demands attention, and every start begins with confidence. This is precisely why this shared road is so special to us.

NEO Rally Žemaitija 2026 is a new name, yet it carries the same strong Žemaitija character. It is a rally where experience meets ambition, speed meets responsibility, and urban mobility meets sporting adrenaline.

We sincerely wish all crews successful starts, accurate pace notes, safe special stages and strong sporting competition all the way to the finish. We wish the spectators unforgettable emotions, and the organisers a smooth, vibrant and memorable event.

May this round become another strong chapter in the story of rallying in Žemaitija.

May the speed be responsible, the road inspiring, and the finish worthy of all the work invested.

NEO – from the rhythm of the city to the speed of rallying

Respectfully, The NEO Taksi Team

“NEO RALLY ŽEMAITIJA 2026” INVITES YOU

“There are only three sports: bullfighting, motor racing and mountaineering. All the rest are merely games.” With this insight, once shared by the renowned writer and adventurer Ernest Hemingway, the essence of rallying was described with remarkable precision. It is here that the skill of the drivers, breathtaking courage and the immense risk waiting in almost every corner all come together. Therefore, in rallying — just as in the bullring or on a mountain expedition — there is no room for mistakes or reckless adventure. Here, everything is real.

Yet even though the drama unfolding on the stages needs no additional emotional amplifier, this does not make the work of the rally organisers any easier. To optimally combine the special stages, road sections and Service Park time windows, while ensuring the required level of safety for competitors and spectators, is a task that can only be accomplished with solid experience and complete dedication. The **Kelmės ASK** team has been doing this without interruption for a second decade and, each time, manages to raise the quality benchmark of the rally at least one step higher. That is why the 2026 event will be even better than last year's.

This time, we have joined forces with a new partner — **NEO**. This means that, together with additional resources, comes greater responsibility and more opportunities to turn the rally into an unrivalled celebration of speed. The tireless architect of the special stages, **Edvinas Vašteris**, has added to the overall project several gravel road sections discovered by **Kelmės ASK** — sections that rally drivers have not seen for at least 15 years. This means that, for the absolute majority of the younger generation of competitors, it will be a completely new experience, while even the more experienced crews will not be able to rely on any vintage pace notes.

NEO Rally Žemaitija 2026 will take place over two days during the first weekend of summer. On 5 June, the programme will include Administrative Checks and Scrutineering, reconnaissance of the route, and the opportunity to check the car's setup on the Shakedown stage. The winners of the second round of the Lithuanian Rally Championship will be determined on Saturday evening after completing **105.09 competitive kilometres — 97% gravel and 3% asphalt** — within a total route distance of **343.57 kilometres**, divided into **8 special stages**. A distinctive feature of this year's event in the Kražiai area will be longer special stages than have been customary in recent years. The so-called **Power Stage** will serve up no less than **26 kilometres**. All of this means that those competitors who consistently maintain strong physical condition and are able to sustain concentration over a long distance will have a greater chance of triumphing in the rally.

The Lithuanian rally community, currently experiencing a golden age, has grown to such an extent that Rally Sprint competitors and LARC crews now compete in separate events — fitting everyone into one sporting flow would be extremely difficult in practical terms. However, there will be plenty of variety for spectators, as this season the strongest classic rally crews will be joined by competitors from the **Extreme Rally Championship**, competing in buggies. Until now, spectators of **Rally Žemaitija** have not had the opportunity to see such machinery up close.

Traditionally, this rally will also be a sign of remembrance and gratitude to **Tomas Savickas**, the man who brought rallying to Žemaitija.

“I believe he would be incredibly happy to see how our rally has grown and improved, how many new talents have revealed themselves here, and how we have all learned to celebrate life,” says **Ingrida Savickienė** with a smile.

Therefore, on **5–6 June**, we look forward to welcoming motorsport enthusiasts to **NEO Rally Žemaitija 2026**. A ticket granting access to all special stages of the event will cost **EUR 15**.

SPECTATOR MEMO

✓ **Plan your arrival in advance.**

Special stages are closed **1 hour before the start of the first competition car**, therefore please arrive at your chosen spectator area early. If you are late, access to your preferred location may no longer be possible.

✓ **Check the rally programme.**

Before departure, review the special stage times, spectator areas, access routes and possible traffic restrictions. The plan may change on rally day, so please follow the official information channels.

✓ **Use the official information channels.**

Relevant information, documents, announcements and updates will be published in the **Sportity** app.

Password: RZ2026

✓ **Prepare for travel on gravel roads.**

Spectator areas are often located outside the town centre, so please take into account the road surface, traffic flow, parking arrangements and walking distance to the viewing location.

✓ **Park your vehicle only in designated areas.**

Parking during the rally may be limited, therefore please follow road signs, information provided by the organisers and instructions from volunteers. Do not leave your vehicle in a place where it may obstruct traffic, local residents, emergency services or other spectators.

✓ **Have cash with you and make sure your phone is ready.**

In some locations, mobile coverage may be limited or card payments may not be available. A charged phone, a power bank and some cash are small things that can be very useful on rally day.

✓ **Dress according to the weather, not the calendar.**

The weather in Žemaitija can be unpredictable. Comfortable footwear, a raincoat, a sun hat, warmer clothing or spare socks may turn out to be the best decision of the day.

✓ **Bring water and snacks.**

A rally is a long day outdoors. Please bring water and light snacks, especially if you plan to watch several special stages.

✓ **Respect local residents and the environment.**

The rally takes place not only on the stages, but also near people's homes, fields, forests and private areas. Do not leave litter, damage vegetation, drive across crops or act in a way that could make the rally unwelcome in future years.

✓ **Follow the progress of the rally.**

Results, changes, information about delays or cancellations should be followed through the official channels. A rally is a living organism — sometimes it changes faster than the weather in Žemaitija.

✓ **Be ready for the emotion.**

The best photos, sounds and memories are created when you are prepared: arriving on time, finding your place, having enough energy and feeling the rhythm of the rally.

Let us create the rally celebration together
