Number of Pages: 1 Attachments: 0

1 SS9 / 10 Stage Length Change

Due to the discovery of a loose man hole cover on SS9 / 10. The stage will be shortened.

The flying finish will now be at Page 20 reference 126. Which is the 4 way junction before the gate

Approximately 0.09 miles past the flying finish there is a visible hazard competitors are instructed to stay right at this location.

GPS Location of the hazard

35.0132263, -84.363919

The stop control for SS9 / 10 is 0.08 past the hazard

GPS Location of Stop

35.013335, -84.365251

Competitors should continue to follow the route after this point.

Andrew Frick
Clerk of the Course
