BIORINA WINTER RALLY ROKIŠKIS 2025

On February 20 and 21, the largest winter motor sports event in Lithuania, “Biorina Winter Rally Rokiškis 2025”, will take place in Rokiškis and the Rokiškis district

On February 21st and 22nd, 2025, the only Lithuanian winter rally festival – “Biorina Winter Rally Rokiškis” – will triumph in the Rokiškis region. Rokiškis will invite racers and spectators who are missing of the cold, snow, ice and snowbanks to one of the most unique events in the cold season – race at breathtaking speeds on the frozen gravel roads of Northern Lithuania. The speed on the icy roads is guaranteed by special winter tires with hundreds long spikes, which make it possible to drive on an extremely slippery surface with very good grip. However, part of the competition takes place after dark, which makes this whole spectacle of speed, sound and light unforgettable for participants and spectators alike.

Rally fans can admire glowing red brake disks, powerful auxiliary headlights and flames from the exhaust pipes of the cars, all accompanied by the roaring sounds of the cars. For the racing drivers, on the other hand, it is a test of maximum concentration and cooperation, as there is no room for mistakes during the high-speed night flight.

Crews have to complete 8 special stages, consisting over 60 kilometers of best winter roads. The participants of the Lithuanian automobile Rally Sprint Championship will gather for this fastest winter festival, and they will be joined by a group of guests from other Lithuanian automobile rally championships and from abroad. The battle promises to be fierce, the views will be impressive and the atmosphere great, so get your gear and thermos ready – let us meet in Rokiškis at the end of January!

During the “Biorina Winter Rally Rokiškis”, wristbands (tickets) can be bought at the entrances to the special stages.

The event is free for children under the age of 12.

MAYOR OF ROKIŠKIS DISTRICT MUNICIPALITY

RAMŪNAS GODELIAUSKAS

Rally participants, enthusiasts, and guests,

The “Biorina Winter Rally Rokiškis 2025” celebration is coming to the Rokiškis region this winter! We are glad that the racers will have the opportunity to test the Rokiškis region's special stages not only in the summer but also in the winter.

I sincerely thank the rally organizers for bringing joy to the residents of the Rokiškis region, guests, and all motorsport fans with this event.

I wish the rally crews successful starts, the determination to overcome every challenge, and the joy of reaching the finish line. To the spectators, I wish for wonderful moments, a

good mood, and an unforgettable winter rally festival.

See you in Rokiškis!

Sincerely,
Ramūnas Godeliauskas
Mayor of the Rokiškis District Municipality

GENERAL DIRECTOR OF JSC "LAŠŲ DUONA"

IVETA AUKŠTUOLIENĖ

Motorsport is not only an impressive spectacle, but also a true celebration of community. Rokiškis will become the center of a winter rally for the first time, and thousands of rally fans will gather to admire the special stages, experience the excitement of the race and support local businesses and initiatives at the same time.

We are happy and proud that this year's winter rally will be called "Biorina Winter Rally Rokiškis". This partnership symbolizes not only our commitment to supporting the community and innovation but also our desire to maintain sporting traditions in Lithuania. We believe that our cooperation with the organizers of the rally will contribute to making this event not only a sports but also a social event that both participants and spectators will remember for a long time to come.

One of the special stages of the rally will also be marked with the name "Biorina" - this is a special honor for us. We have prepared special prizes for the winners, which will be presented at the award ceremony.

Biorina is the most modern buckwheat processing plant in the Baltic States, which not only preserves and cultivates the traditions of local products but also aims to inspire change. Our buckwheat, which is grown in cooperation with local farmers, is organic, healthy and perfectly reflects the culture of Lithuanian agriculture. We are happy that our products are popular not only in Lithuania, but also in the farthest corners of the world - from the USA and Canada to Australia and Hong Kong.

Therefore, we invite everyone to come to Rokiškis on January 24 and 25 and participate in this impressive event. Let us support the sport, the traditions, and each other because that's what the true spirit of the rally is all about!

Sincerely,
JSC "Lašų duona" Team

ORGANIZER OF THE RALLY JURIJ PIATIN

Dear rally fans, participants, and guests of the event,

I would like to express my joy that the winter rally will finally take place in Rokiškis, which is full of wonderful special stages and motorsport fans. The rally in this region has strong traditions, and the town is famous for more than one racer. Rally fans will have the opportunity to see impressive races not only on frozen roads but also at night. We hope this event will be well remembered by both participants and spectators.

I would also like to thank the Municipality of Rokiškis and Mayor Ramūnas Godeliauskas for giving the green light to this rally. A big gratitude also goes to all the sponsors, without whom this event would not have been possible. My special thanks go to the Lithuanian Automobile Sports Federation for their trust in granting the "Biorina Winter Rally Rokiškis" the status of the Lithuanian Automobile Rally Sprint Championship. I would also like

to address the spectators – motorsport can be dangerous, so I urge everyone to behave consciously, carefully, and responsibly – to watch the rally only in safe places, not to pollute the environment, and to respect the property and well-being of local residents.

I wish the racers excellent results and finishes and the spectators unforgettable views in safe places.

NIGHT LIGHTS

ADDITIONAL NIGHT LIGHTS

During the “Biorina Winter Rally Rokiškis 2025”, SS7 and SS8 will be held in the dark. All cars are required to have at least two additional lights. The suitability of the additional lights will be checked during the Scrutineering.

PARTICIPANTS SAFETY SYSTEM

INSTALLATION OF SAFETY TRACKING SYSTEM

- All Competitors must make provision in their cars for the installation of the Safety Tracking System. Systems will be issued at the Administrative Checks. All further details will be given during the presentation to each crew.
- Participants must install a GPS tracking device in the reconnaissance car before starting the reconnaissance. The GPS device must be transferred to the sports car and shown to the scrutineers in the pre-start area.
- Any attempt to tamper with, manipulate or interfere with the tracking device fitted to the competition car or any device that fails to record a trace due to external interference will be reported to the Stewards, who may impose a penalty up to disqualification.

PRINCIPLES ON SECURITY AND TRACKING

Each device has a unique serial number that is assigned to a crew. During the competition, rally control center (RCC) follows the position and speed of each crew. The STS GPS tracking device is connected with rally control center (RCC) (which gathers all the data. All data is also gathered in the device itself. The device has an autonomic power resource that is enough for all rally. STS GPS tracking device control unit has "SOS" and "OK", "Roadblock" and "Fire" buttons. By activating "SOS" button, crew members are informing RCC about an accident and that they need assistance ASAP. In this case, calling the phone number on the sticker on the GPS device is also mandatory. If the car stopped in SS due to an accident or technical issues, by pressing "OK" button, crew members inform RCC about the race car being stopped on SS and no additional assistance is needed.

Attention! If the crew has stopped in the special stage for a longer period than 10 seconds, even when the crew is still trying to continue participation, crew members must press „OK“ button on STS GPS tracking device control unit. Mobile phones of the crew members must always be on (or switched on within 60 seconds) so that the rally control centre (RCC) could acquire current information about the situation. If the crew receives a Red Flag signal from the device, also known as a signal of danger (Loud sound and RED indicators on STS GPS tracking device control unit), the „OK“ button must be pressed for 3 seconds so that RCC receives Confirmation from the crew . The crew must slow down the car and follow marshal instructions accordingly.

SERVICE ZONE

SAFETY RULES FOR MEDIA REPRESENTATIVES

- It is strictly forbidden to be at the race site under the influence of alcohol, drugs or other intoxicating substances.
- During the competition, media representatives must at all times follow all instructions given by the commissaires, safety personnel and officials.
- Accredited media representatives must choose a safe observation point on the track and be prepared for unusual situations or accidents during all competitions.
- An accredited media representative with a media vest issued by the LASF or the event organizer has the right to be in dangerous areas of the track, no further than 2 (two) meters from the safety boundaries (fences, tapes, etc.).
- An accredited media representative without a media vest issued by the event organizer or LASF has no right to be in dangerous areas of the track and areas designated for media representatives.
- The work of accredited media representatives or the presence of their equipment at the competition site cannot in any way affect the safety of the competition or the results of the competition participants.
- Accredited media representatives are prohibited from using “drones” or any other ground-controlled equipment without prior written permission from the organizer.
- Accredited media representatives must beware of moving vehicles! Your safety on the track or in the service park depends solely on you. Pay special attention to your surroundings and actions there!
- Avoid standing too close to the cars in the service park! Do not obstruct the work of the mechanics and the entire team!
- Avoid standing near firefighting, rescue and/or ambulance vehicles, as they may start moving suddenly, without prior warning.
- In the event that it is necessary to review work material (photos, footage, etc.), avoid doing so near or away from the competition course. Choose a safer location!
- Avoid crossing the competition course as much as possible. If you must cross the course, choose a safe location with good visibility and make sure that no cars are approaching.
- Violation of any of the media safety rules may result in the media representative's accreditation being revoked and removal from the race venue.
