MANX INTERNATIONAL CLASSIC TRIAL 2026

The Committee of The Manx Trials Club would like to thank all Observers, Route Openers & Closers, Landowners and all those connected with the successful running of this year's Manx International Classic Trial.

The Provisional dates for next years event are 4th & 5th September 2027 pending the announcement of the dates for the Manx Grand Prix

We have received a lot of very complimentary feedback to this year's event which makes all the effort worthwhile

Here are extracts from two of the comments:

'Good morning - Sadly I can't put names to the team who just put the Manx International Classic Trial together, but wow, just wow! What a team. That is how you put a classic trial together. If you took the bald and grey haired men out of the hall on Sunday evening you would have had a pretty empty hall. What you folk managed to do was show you don't have to "break the field" to get a winner! I couldn't nor wouldn't start to thank individuals for the fear of missing someone out but can't end without a mention to the team(s) of course and section setters. The level of care taken in cutting out and clearing trails was on the next level, that was a text book trial geared for its audience, older men/women on older bikes. Very well done each and every one of you.'

'Hi Team - I'd just like to say a huge thank you to everyone who has made this weekend happen. The attention to detail, atmosphere and riding experience was amazing. I think Saturday particularly was the best day riding a bike I have ever had. Thank you so much to all the people involved in making the event happen and to the landowners!! Its been amazing!'
