MANX INTERNATIONAL CLASSIC TRIAL 2026

GUIDE TO USE OF THE TRIALS OBSERVER APP

As you are aware we have again decided to use the Trials Observer App and its associated Tablets for recording riders scores at this years Event. The following is a brief guide to using the App. The App provides a very quick & user friendly way to record riders scores and this data can then be compiled to produce the Event Results in a fraction of the time taken using the more traditional methods.

If any of our Observers have any queries or wish to try out using the tablets there will be a couple of tablets available for them to experiment with at the Signing On evening at the Manx Legion Club on Friday 28th August, together with someone to answer any questions.

The Tablets will be delivered to each Observer at the Section by one of the route openers and then collected once the last rider has passed through your Section.

Just in case you encounter any issues we will provide each Observer with a notepad & pencil (at Signing On) to jot down any notes that can be passed to the Results Officers.

You will note that the tablet provides the option to give a score of 10 – We would ask that you do not use this option – If a rider is not keen to tackle a section & asks for a five please record a 5 as you would using the traditional methods.

We sincerely hope you enjoy the Trial and many thanks for your time and assistance.

1

Rear View showing tablet number which corresponds to your Section number

2

Side View showing on/off switch

Hold in for 2 secs until you feel a buzz & loading screen then appears

3

Loading Screen (loading takes up to 20 secs)

4

Start Screen **Swipe up** to move to Home Screen

5

Home Screen **Open Observer App**

6

Observer App Home Screen appears

7

Type Rider No. & Press Enter
(It is helpful to do this before the rider enters the Section so you don't have to remember the number)

8

Type Score & Press Enter

9

The screen then returns to the Observer App Home Screen for recording the next rider

If you wish to restart entry of a rider no. or score to correct a mistake **Press Clear** at any point before Entering the Score (Fig. 8)

If you realise you have made a mistake after typing the score & pressing enter—
You can cancel this record by pressing the 3 dots in the top right hand corner of the screen

A drop down box will appear

Press the top line

‘Cancel Last Record’

Confirm cancellation of last record by pressing

Yes

If at any point a screen view appears you are not familiar with simply press the dot in the centre of the bottom of the screen—This will take you back to the Observer App Home Screen (Fig. 5) from where you can open the App to continue recording scores

Once the last rider has passed through the Section the tablet can be turned by holding the On/Off switch at the side of the Tablet

The adjacent view will appear & you simply select Power Off

If for any reason the screen goes blank simply press the On/Off switch quickly to restore the screen
