

Bulletin 1 21.03.25

### 1. Additional Radio Posts/Red Flags

Due to the size of the venue, in addition to having red flags at the mandatory radio posts as detailed on the stage diagrams, there will be red flags at all radio cars, at the recovery vehicles mid-stage and at the turnaround vans also mid-stage.

The additional red flags will be located at radio posts:

Post 3

Post 4

Post 6

Post 11

Post 13

Post 14

2. MID-STAGE RESCUE - will be located at: point marked X on attached stage diagram
3. The turnaround vans are located at posts: 4, 6 and 10.
4. As a reminder, the red flag procedure for Kinloss is that when a red flag is displayed, you must STOP IMMEDIATELY in a safe place, not blocking the stage. This is because of the speed of some of the stages.
5. There was a typo in the Final Instructions –  
The name of the Stage Commander is Neil McHaffie.
6. CHICANE markers on stage diagrams – I have noticed that the boxes advising of chicanes on the stage diagram for stage 5 and 6 have been blanked on the approved diagram. The chicanes are in place in the same locations with the same entry on all 6 stages.
7. CHICANES – all chicanes are 4 finger chicanes spaced 12m apart as per Rally Futures.
