| Driver Name | Mark Summers- Club S&WMC |
| Navigator Name | Yvonne Walton – Maesteg & District |
| | First run with Yvonne after doing my first stage rally Dec 23. First couple of events were taken up with learning to drive car & get set up right. Had a great run on the Lookout stages but clapped out on last stage. Lesson, make sure you remove crash sensor. Was planning more events in summer building up to The Three Shires but ill health & a stay in hospital got in the way. So, this event is a return to the fray. |

| Navigator Anything Else | Always been a rallying fan since travelling around from the age of 7 with my older brother when he was rallying in the 1970's. Offered the opportunity to co-drive last year I jumped at the chance and loved it. Since then, I have thrown myself into rallying life, enjoying marshalling as well as the navigating, and enthusiastically taking part in club life at Maesteg & District MC |
