CAR #6

Stage 3 Dog Leg South

We started with 3 minute window behind Car 5 who was having engine troubles when he started the stage.

Shortly after the HPL we caught his dust and shortly after that we could see him ahead of us.

I pressed push to pass 4 times - each time I could actually see his car -

⊘ We lost approx. 36+ seconds as we had to follow him to the end of the stage

The co-driver of car 5 saw the pass request but the car did not pull over, ⊘

with 3 minute window.

I have in-car video if req'd to show
the situation.
