CAR #18 20:39 handed in.

Inquiry on Steam Clock SSZ

At around 12:32 on stage there was a red and black competitor (car # 4 maybe) that stopped and had no cones or OK sign out. We came to a full stop beside them to check if they were OK, the driver waved both hands forward to tell us go. The rally safe flashed hazard and asked OK? went to press OK and the rally safe flashed push to pass.
