

## BULLETIN 1

**Date** : 8 Augustus 2023  
**Concerns** : Change of tyre supplier  
**Regulations** : KNAF permit 0311.23.129

Because of supply problems at HANKOOK caused by the fire in their factory in Korea PIRELLI will replace Hankook as official tyre supplier for the Supercar Challenge at all the remaining Events in 2023.

Old text:

### 8.9 Tyre regulations

~~VRM has signed a sponsorship contract with tyre manufacturer HANKOOK. All participants are therefore compelled to use HANKOOK brand tyres to be supplied by their representative Racetyres B.V. Zandvoort. Participants are entirely free though to choose the type of tyre, compound and size. Intermediate tyres are not permitted, only full original slick tyres and full wets.~~

~~The number of slicks for the qualifying session and both races shall be limited. No restrictions shall apply to rain tyres, but their use shall be subject to the Race Director/Clerk of the Course declaring a “wet practice” or “wet race”. Each competition vehicle can be supplied with a maximum of ten (10) slicks to be marked by HANKOOK for use by this specific vehicle before the start of the event.~~

~~Free practices and private tests may be run using marked slicks from the previous meetings. Exceptions may be granted by the series Permanent Scrutineers. If a tyre is punctured or severely damaged on a racing weekend, a “joker tyre” may be requested from HANKOOK. Such tyre must be authorized by the Permanent Scrutineers and marked as “joker tyre” if applicable. No more than 3 joker tyres shall be allowed for the first four races of the season, and three additional joker tyres for the last four races.~~

~~During all races Racetyres B.V. will be present to supply tyres directly. It is recommended that you make a reservation for the tyres you require beforehand.~~

### **8.9 Tyre regulations.**

**VRM has signed a sponsorship contract with tyre manufacturer PIRELLI. All participants are therefore compelled to use PIRELLI brand tyres to be supplied by their representative Racetyres B.V. Zandvoort. Participants are entirely free to choose the type of tyre, compound and size. Intermediate tyres are not permitted, only full original slick tyres and full wets.**

The number of slicks for the qualifying session and both races shall be limited. No restrictions shall apply to rain tyres, but their use shall be subject to the Race Director/Clerk of the Course declaring a “wet practice” or “wet race”. Each competition Car can be supplied with a maximum of ten (10) slicks to be marked by PIRELLI for use by this specific Car before the start of the Event.

Free practices and private tests may be run using marked slicks from the previous meetings. Exceptions may be granted by the series Permanent Scrutineers. If a tyre is punctured or severely damaged on a racing weekend, a “joker tyre” may be requested from PIRELLI. Such tyre must be authorized by the permanent scrutineers and marked as “joker tyre” if applicable. No more than 3 joker tyres shall be allowed for the first four races of the season, and three additional joker tyres for the last four races.

#### **New 8.9A**

**It is allowed to use raintyres from HANKOOK, supplied earlier in the season by Racetyres, and marked with a VRM sticker until stock is exhausted. After this PIRELLI raintyres are mandatory.**

**During all races Racetyres B.V. will be present to supply tyres directly.  
It is recommended that you order the tyres you require beforehand.**
