Dear Mr Lord

**RSAC SCOTTISH RALLY: 20 JULY 2024**

I refer to your correspondence dated 18 June 2024 relative to the above event. I write to acknowledge the route of the event on the public road network for the competitors and I have no issues with same.

I note the start will be at the Jas P Wilson's yard Dalbeattie and the finish of the event on High Street, Dalbeattie where the Roads Authority are processing a Road Closure Order. In addition I see there are regroupings at the Daniel car park and Edingham Industrial Estate.

I acknowledge spectator access will be permitted into 4 of the 6 stages and suggest measures are taken to provide spectator car parking facilities off the public road at these forest special stages. The location of any control points on the route should not obstruct the passage of other road users.

Given parts of the rally routes travel through residential areas I suggest competitors be reminded to drive according to the conditions and keep noise levels to a minimum.

I have checked with AMEY, for the Trunk Roads and Dumfries and Galloway Council, for the local road network and neither have come back with any planned road works on your proposed route for the day of the event.

OFFICIAL

Finally, I have notified Officers of the proposed route and subject to other duties checks will be carried out. I wish your organisation a successful event.

Yours sincerely
