After review of control logs, it was found that Car 529, Bailey/Rock, was given a time for checking out of Service A (TC 6C) before they had been met conditions for checking out. This was confirmed by interviewing marshals.

The co-driver entered the control at their checkout time (16:29). That time was recorded and used in Scoring. He explained to the marshals that the car was coming. However, it did not arrive until five minutes later (16:34).

Per RCR 5.3.3, "The actual timing and entry of the time on the time card can only be carried out if the two crew members and the competition vehicle are in the control area". The conditions for check-in were not met until five minutes after their due time.

Car 529 is assessed with a 50 second penalty for checking out of service five minutes late.
