

# 2024 Subaru of Puyallup Olympus Rally

## Presented by Dirtfish

### Recce Instructions

(Updates since previous version are underlined)

### Recce Times

Recce starts at 0700 and ends at 2000. Individual stages are open for recce according to the following schedule:

0700 to 2000	Deckerville 43, Kuhnle Short, Plug Mill, Not So Stillwater, <del>Schafer Long</del> , Wildcat Short stages
0700 to 0900	Power stage
0900 to 1300	Nahwatzel stage
1300 to 1500	Power stage
1500 to 2000	Nahwatzel <u>and Schafer Long</u> stages

This schedule is subject to change dependent upon last minute changes to logging and other landowner activities on the stage roads. Any changes to these times will be announced via Bulletin one week before the rally.

Competitors are only permitted on the stage roads and inside the landowner's gates for those roads during the designated times. Do not drive past the gate to the start of a stage before the designated start time for recce on that stage road. Do not start recce of any stage road with insufficient time to reach the end of that road before the end of the designated recce time for that stage.

### Recce Rules

During recce, teams participating in recce are reminded that they must:

- comply with ARA RCR 1.2.1
- not exceed the posted speed, or 30 mph, if not posted
- be alert to the possibility of oncoming traffic at ANY time
- not do anything during recce that would reflect poorly on rally
- comply with ARA Bulletin 2024-4 and use the RS Lite smartphone app during recce

### Behavior During Recce

Recce and poor behavior of competitors during recce are among the largest risks to our continued access to the stage roads. Be respectful of the communities through which our event travels.

Sections of road designated as Quiet Zones in the Route Book are also to be treated as Quiet Zones during recce. These roads include Kelly Road (Kuhne Short and Schafer Long), Hanks Lake Road (Power Stage), Plug Mill Road (Plug Mill), and Bulb Farm Road (Wildcat Short).

### Recce Route

There is no defined recce route. Teams plan their own recce route. More than two passes of each stage are permitted as long it occurs during the recce times listed above.

Take care when using Google Maps or other navigation to find routes between stages different from what is described below. Many of these services provide inaccurate directions via roads that once existed or were once open but now have gates or go through private property.

## **Stage Notes**

### **Deckerville 43**

The route of the Deckerville 43 stage is the same as the Deckerville Reverse stage used in the 2021 Olympus Rally.

### **Kuhnle Short**

The route of the Kuhnle Short stage is a shortened version of the Kuhnle stage used in the 2022 Olympus Rally. It leaves the 2022 route at instruction 5 (approx. 3.5 miles) and eventually turns onto what was the transit after that stage.

### **Nahwatzel**

The route of the Nahwatzel stage is a new configuration that uses section of roads from past iterations of the Nahwatzel stage. It is similar to the Nahwatzel stage used in the 2017 Olympus Rally.

### **Not So Stillwater**

The route of the Not So Stillwater stage is a new configuration that uses section of roads from past iterations of the Stillwater stage.

### **Plug Mill**

The route of the Plug Mill stage is a shortened version of the Plug Mill stage used in the 2016 Olympus Rally. It is also a shortened version of the Plug Mill Reverse stage used in the 2021 Olympus Rally but run in the reverse direction.

### **Power Stage**

The route of the Power Stage uses roads previously used in past iterations of the Nahwatzel stage. Most of the stage road is also part of this year's Nahwatzel stage but run in the reverse direction.

### **Schafer Long**

The route of the Schafer Long stage is the almost the same as the Schafer Long stage used in the 2022 Olympus Rally. It starts in a new location and joins the 2022 route at instruction 6 (approx. 2 miles in). It also uses a short loop that has been previously bypassed.

### **Wildcat Short**

The route of the Wildcat Short stage is the same as the middle of the Wildcat stage as used in the 2023 Olympus Rally. The stage road starts at instruction 7 (approx. 3 miles in) and ends at instruction 40 (approx. 13 miles in) as it was run in 2023.

### **Nahwatzel/Power Stage Recce Overlap**

The Power Stage road runs some of the same roads as the Nahwatzel stage. However, because these stages run the road in opposite directions, recce of one will stop while recce for the other runs.

Competitors are reminded that, as per ARA RCR 1.2.1.d, recce may only be done in the stage direction and driving on these roads, for example, in the Power Stage direction during a recce time window for the Nahwatzel stage will be considered an infraction.

### **Recce Notes**

Once you leave Shelton, the only sources for fuel are the Matlock Store and the Dayton Store. There is food at the Matlock Store, Lake Nahwatzel Resort, Dayton Store, and Tuggs & Chuggs/Buck's Prairie Store (described below).

Depending on your mobile phone provider, your cell phone may not have phone and/or data coverage in the vicinity of the stage roads and transits. Verizon has better coverage in the area than AT&T or T-Mobile.

On recce day, sunrise will be at 6:13 and sunset will be at 20:09 (twilight ends at 20:40).

If you need to contact a rally official during recce, call Alan Perry (206-499-5501).

## Referenced Locations

### Dayton Store

This is a small convenience store and gas station. It is along the transit between Sanderson Field and most of the other stage roads. It is open from 0800 through 2100. The address is 7480 W Shelton Matlock Road. Google Maps Coordinates: 47°13'36.9"N 123°13'54.7"W

### Lake Nahwatzel Resort

The resort has a restaurant on Shelton Matlock Road near Nahwatzel Lake and between the start of the Nahwatzel stage road and the end of the Power Stage road. It is open from 1200 through 2100 on recce day. The address is 12900 W Shelton Matlock Road. Google Maps Coordinates: 47°14'23.5"N 123°19'41.1"W

### Matlock Store

The Matlock Store is located west of the start of the Nahwatzel stage road, between there and the Deckerville 43, Kuhnle Short, and Schafer Long stage roads. In addition to fuel, it has a small grocery store and some prepared, "convenience store" food. Google Maps Coordinates: 47°14'19.0"N 123°24'27.1"W

### P Corner

This is a local reference location. It is on Shelton-Matlock Road, about 2 miles east of the Matlock Store. Project 5 Road crosses Shelton-Matlock Road there. This year, the start for the Nahwatzel stage is at P Corner. Google Maps Coordinates: 47°14'22.3"N 123°22'09.1"W

### Sanderson Field

Also referred to a PSIR (Port of Shelton Inactive Runway). This is the location for check-in for Recce as well as Rally HQ and the Service Area. The address is 249 W Sanderson Way, Shelton. Google Maps Coordinates: 47°14'44.5"N 123°08'55.7"W

### Tuggs & Chuggs / Buck's Prairie Store

Tuggs & Chuggs is a tavern, serving cold sandwiches, pizza and maybe hamburgers, and it is next to Buck's Prairie Store. They are on the route to the Wildcat stage, on Cloquallum Road, just west of the junction with Highland Road. The store is open from 1000 through 1800 and the tavern is open from 1200 through after the close of recce. The address is 13443 W Cloquallum Road. Google Maps Coordinates: 47°08'04.6"N 123°18'44.4"W

### Estimated Recce Transit Times
