The diagram shows a speedometer interface for a 'STELLA EVO' device. The main display shows a speed of 119 km/h and a throttle position of 24.82%. A red flashing light icon is positioned to the left of the speedometer, with a red line pointing to the text 'ROJO PARPADEANDO exceso de velocidad máxima'. The speedometer has a scale from 0 to 100 km/h, with the needle pointing to 119. The throttle position is shown as a percentage. The device also displays the license plate 'K27S' and a gear indicator showing '11' and '10'. The 'anubespport' logo is visible at the bottom right of the device.
