October 14-15, 2022

BULLETIN #1: Service Spectating Change

On Sunday, October 2, 2022, the Advance Information was released and contained the following statement on page 7 under Service Information and Route:

Crews wishing to spectate must use a separate vehicle. The spectator areas on SS 1 and 2 may be the only options due to scheduling. Crews may be able to view SS 15 and 16 in Marquette.

This statement is incorrect. Service crews are not allowed to leave the service area once they have entered (RCR 7.1.10 Service Crews). We underestimated the effort and number of volunteers it would take to make this happen.

We therefore delete that statement, as quoted above, and restate that Service Crews are not allowed to leave the service area once they have entered.

Spectating at SS 15/16 will be investigated and a separate bulletin may be issued for those stages ONLY>

Tom Nelson, Clerk of the Course 10-3-2022
