

Bulletin #3

December 2, 2025

Topic: Itinerary, Route Book, Interval Information and Updates

Stage Itinerary

Due to the rain and snow in the last few weeks making some roads impassable, a contingency plan has been put in place. This plan is printed in the route book and will be marked as contingency. Competitors will be supplied with a print out of the Onyx turn around for their routebook. Maps for the two new stages are provided.

Overall Event Itinerary

An updated overall itinerary is also available reflecting the change to remote refuel zone. It also corrects the error on day two for the location of the final MTC.

Route Book & Supplied Pace Notes

The official route book has been printed and the organizers will be supplying pace notes for the 2025 season. Refer to the pace notes for updated hazards. Recce is still highly recommended to all competitors.

Interval

Section 14.1 of the supplemental regulations has been removed. Due to recent weather, the itinerary change, and other external factors, dust minutes will be added to the rally as deemed necessary during the running of the rally.
