12. Other procedures and regulations

12.8 Virtual Chicanes (New Article)

A Virtual Chicane will be set up in the locations given in the Road Book on SS 3 – 5 Terelle.

There will be approach warning signs as reported below, counting down from 150 – 100 – 50 metres before the area starts. The Tracking Unit will also be showing the distance to the start. The start and finish of the 250 metres long chicane area will be marked with signs, as reported below, on right side of the road.

“Inizio VC” Board stands for “Virtual Chicane Start” while “Fine VC” stands for “Virtual Chicane End”

Within these 250 metres, the speed of the rally car must go down to a maximum of 50 km/h.

This will be shown by the SAS Tracking Unit, which screen shows the speed and turns green once the target speed has been reached.

Once the target speed has been reached, the car may accelerate again. This target speed must be reached at any point within the area, so braking may start before the area.

Should the speed not be reached the crew will be penalised in accordance to FIA 2026 RRSR Art.53.7.5.

The time penalty is added to the stage time and notified to the crew by the Clerk of the Course.
