Dear Mr Lord

#### **RSAC SCOTTISH RALLY: 19 JULY 2025**

I refer to your correspondence dated 27 June 2025 relative to the above event. I write to acknowledge the route of the event on the public road network for the competitors and I have no issues with same.

I note the start and finish will be at the Jas P Wilson's yard Dalbeattie and it would appear you are already aware of the planned A711 John Street, Dalbeattie road closure, hence the reroute via James Street, Albert Street and Station Road within Dalbeattie.

At stages where spectator access is permitted, I suggest measures are taken to provide spectator car parking facilities off the public road. Furthermore, the location of any control points on the route should not obstruct the passage of other road users.

Given parts of the rally routes travels through residential area I suggest competitors be reminded to drive according to the conditions and keep noise levels to a minimum.

I have highlighted the route to AMEY, for the Trunk Roads and Dumfries and Galloway Council, for the local road network. I have been notified that drainage works are currently scheduled on the A75 between Twynholm and Gatehouse on the 18th and 19th of July and there will be temporary traffic lights in place.

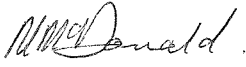

On the local Council network there are works planned/road closure on the A711 John Street, Dalbeattie which you are already aware of.

OFFICIAL

In addition, as in previous years there is a parade planned in Castle Douglas, This will start at 1pm and be finished by 2pm.

Finally, I have notified Officers of the proposed route and subject to other duties checks will be carried out. I wish your organisation a successful event.

Yours sincerely

*MP*
