

Dear Jonathan,

Many thanks for your request to amend the running order of the RSAC Scottish Rally in accordance with NCR 13.2.4.4.

I am pleased to be able to confirm that all two wheel drive cars running in reverse order can run at the head of the field, with all four wheel drive cars in conventional seeded order to follow with an appropriate gap.

Please accept this email as written approval of the above request which should be shown to the Motorsport UK Steward if requested.

Kind Regards,

Jonathan
