FOREWORD

Once again, the organisers of the RSAC Scottish Rally aim to offer competitors a challenging event over some of the best stages in Scotland, and we extend a warm welcome to competitors from Scotland, England, Ireland, Wales and further afield.

Following our 125th anniversary last year, RSAC Motorsport is proud to continue a long sporting heritage which dates back to the Scottish Reliability Trials of Edwardian times.

The rally will feature:

- 42 miles of stages on Forestry land, which are in outstanding condition. We have worked closely with Forestry and Land Scotland to ensure that only stages of good quality are used, and we are grateful for the support of their engineering team for the work they have done at our request.
- Two wheel drive cars running at the front in reverse order, followed immediately by four wheel drive cars in conventional order.
- A competitive entry fee which includes a service plate and the provision of a tracking device.
- A return to our rally base at Jas P Wilson Forest Machines in Dalbeattie. This year the start and finish will both be located there, as well as two visits to the service park, which we hope will prove popular with competitors.
- Testing opportunities before the event, run by John Parker Associates.

We are pleased to be a round of the Asset Alliance Group Motorsport UK Scottish Rally Championship; the HRCR Northern Historic Gravel Championship; and the MG3 Rally Challenge. We are also pleased to welcome our friends from the UK Armed Forces Rally Team, whose Land Rovers have been part of the event since 1963.

Iain Wilson, Director of Jas P Wilson Forest Machines, will be known to many competitors as a regular participant in Scottish Rally Championship events, and we are extremely grateful to him and his colleagues for their support of the event, their encouragement and their willingness to provide all the necessary facilities. Following last year's successful trial, we shall again have a big screen which will be positioned next to the service area, allowing spectators, competitors and their service crews to see live action from the stages, interviews, historical materials and much more. We are grateful to the local businesses in Dalbeattie who have made this possible.

For the twenty-eighth time, we will be supported by Dumfries and Galloway Council. We believe that this is the longest-running partnership between a rally and a local authority anywhere in Britain, with the Council supporting over one-third of all the Scottish Rallies run since the first one back in 1932. We are pleased to be one of the Council's seven 'Signature Events', which cover everything from Burns Suppers to arts festivals and World Championship ice hockey. We are also pleased to acknowledge the close interest taken by the Lord Lieutenant, the Council Leader, its Communities Committee and so many different Council departments.

We are sorry that it has been necessary to increase entry fees (in line with other events) to cover a further rise in forestry charges. We have tried to keep this increase to a minimum.

We continue to work hard to ensure that the rally is run to the highest safety standards, with the safety of competitors, officials and spectators of paramount importance. We rely on the help of many volunteers to ensure that the rally runs smoothly and safely. The members of our organising team work hard throughout the year, and we are very grateful to them. Many hundreds of volunteer officials, safety and radio crews, and marshals all do a superb job. We are proud to be associated with you all, and with Police Scotland, Forestry and Land Scotland and other landowners.

We look forward to welcoming you to Dumfries and Galloway in July, and wish you a safe and successful rally.

The Organising Team

WELCOME

**from Councillor Maureen Johnstone
Dumfries and Galloway Council**

Dumfries and Galloway Council is pleased to welcome once again the RSAC Scottish Rally, which is to take place for the 79th time this year, to our region.

The Council has a long-standing, positive and warm partnership with RSAC Motorsport to bring this historic and exciting event to Dalbeattie and the nearby forest stages. For many years the Rally has been one of the most important annual events to take place in south west Scotland, and there is huge community support for the event and a long history of rallying as a sport and pastime here.

The Council appreciates and witnesses at first hand the depth of planning that goes into organising the Scottish Rally. We value the time and commitment of the Clerk of the Course and his team to plan and deliver a safe rally that is open to all to enjoy. We hope that everyone involved in the Rally has a fantastic day.

- 15.8** The Rally will consist of Road Sections and Special Stages.

15.9 Road Timing will be to the previous whole minute.

Each road section will be allocated a Target time based on an average speed of 30 mph or less, and Competitors can calculate their Due Time of arrival at any Time Control (TC) by adding this Target Time to their actual time of departure from the preceding TC.

Lateness will be calculated with reference to this Target Time. Therefore, if a Competitor exceeds the Target Time for a road section, lateness will be incurred. Each time Competitors exceeds a Target Time the lateness incurred will be added to their previous lateness to give Cumulative Lateness.

15.10 Special Stage Timing

Special Stage timing will be to the previous second. All Special Stages will have a bogey time set at an average speed of 75 mph. Bogey Times will be indicated in the Road Book and on the Time Cards. Competitors will receive penalties on Special Stages as follows:

Under Bogey	Bogey Time
Over Bogey	Actual Time Taken
Over Stage Maximum	Stage Maximum

Time in excess of Stage Maximum Time on a Special Stage will count towards Competitors' Cumulative Lateness.

Competitors are referred to NCR Ch.13 App.2 Art.4.24 and 25 for details of penalties which may be awarded in the event of a Special Stage being stopped. The two groups of Competitors defined in Article 22.2 may be given different notional times in accordance with NCR Ch.13 App.2 Art.4.34 and 4.37.

Should any Special Stage be cancelled during the event or removed from the results after the event, only the Stage Penalties will be deleted. Unless an Official Bulletin has been issued to the contrary, the cancelled stage must be traversed within Target Time, and will in every other respect be treated as a Road Section.

15.11 Red Flag Procedure

The event will use Motorsport UK Red Signal procedure on stages where extreme circumstances make it necessary to authorise the movement of non-competing or rescue vehicles before the stage is cleared of competing cars. These will be located at mid-stage rescue points, all locations where a rescue/emergency vehicle may re-enter the stage following a shortcut and at designated radio points. Competitors are reminded to read and understand the Red Signal procedures as prescribed in NCR Ch.13 App.2 Art.4.17 and App.10 Art.7.31. On passing a Red Signal displayed by a Marshal wearing a Marshals' tabard, the driver MUST immediately and significantly reduce speed as well as being prepared to stop at any time; at no time must they overtake any safety vehicle they encounter on the special stage route. The driver must then follow the instructions of any marshals and/or stage safety personnel and maintain this reduced speed until leaving the special stage. Failure to comply with this rule will incur a penalty at the discretion of the Clerk of the Course.

15.12 Time Controls

Marshals are responsible for filling in Competitors' Time Cards. Displays will be at all Time Controls showing the time allocated by the Marshal.

Time Controls are classified as follows:

MAIN TIME CONTROL (MC)

The MC at the Start, or after any other specified point, will be designated as a MC (OUT).
The MC at the Finish, or before any other specified point, will be designated as a MC (IN).

At a MC (OUT) Competitors will start, or restart, at one minute intervals either in numerical order, or in order of their arrival at the preceding MC (IN) or as may be determined by the Organisers.

Each Competitor will be given a due starting time from any MC (OUT) and any difference between this time and their actual starting time will be counted towards cumulative lateness. A time penalty will also be applied.

Competitors arriving at any MC (IN) within their maximum permitted lateness will, subject to Article 15.6 above, restart from the associated MC (OUT) with Zero lateness. Lateness is only accumulated between two successive MCs.

TIME CONTROL (TC)

Competitors will receive a time in hours and minutes.

SPECIAL STAGE ARRIVAL CONTROL (SSA)

On arrival, Competitors will see the time of arrival on the display. The provisional start time will normally be three minutes later than the arrival time. The area between the SSA and SSS is Parc Fermé. Competitors who arrive early may wait outside the control area (NCR Ch.13 App.13 Art.3).

After clocking in at the SSA, Competitors must proceed immediately to the Stage Start Control or follow Marshals' instructions.

SPECIAL STAGE START CONTROL (SSS)

At the SSS, Competitors will see a combined time display and traffic light. The start time will be shown in hours and minutes once entered by the Marshal. This will normally correspond to the provisional start time calculated from the arrival time. As each section is timed separately, the time taken from SSA to SSS is "Dead Time" and delays are automatically allowed for.

The Start will be signalled by the traffic lights which will go from RED (15 seconds to go) to AMBER and RED (10 seconds to go). RED goes out at 5 seconds and AMBER counts down 5-4-3-2-1 to GREEN at the start time. In the event of failure, the start procedure will revert to the manual system described in Motorsport UK NCR Ch.13 App.10 Art.7.36.

SPECIAL STAGE FINISH CONTROL (SSF)

The time transmitted from the Flying Finish along with the car number will be shown on the display at the stop line in hours, minutes and seconds.

Competitors must stop at the Stop Line. Any competitor who fails to stop at the Stop Line must return on foot. Reversing the car is prohibited and subject to the penalty of disqualification. (NCR Ch.13 App.10 Art.7.28 and App.8 Art.1.3(p))

SERVICE CONTROL (SV)

Service Areas will have 'IN' and 'OUT' Time Controls. A Target Time will be specified between these controls. The section between SV (IN) and SV (OUT) will be marked as a Road Section.

REGROUP CONTROLS

Regroup areas may be set up along the route. Their entry and exit controls are subject to the general rules governing controls. The purpose of these regrouping areas will be to reduce the intervals which may have occurred between competing cars as a result of late arrivals and/or retirements. On their arrival at these regrouping controls, the crews will receive instructions on their restart time. They must then drive their car immediately and directly to the parc fermé. Engines must be stopped.

Each Competitor will be given a due starting time from any Regroup TC (OUT) and any difference between this time and their actual starting time will be counted towards cumulative lateness. A time penalty will also be applied. Exceptionally, the Organisers may delay departure from Regroup TC (OUT) in order to manage gaps within the running order, in which case the delay will not be counted towards cumulative lateness and there will be no time penalty.

Cumulative lateness will NOT be reduced to zero at Regroups. Competitors arriving at any Regroup TC (IN) with cumulative lateness will, subject to Article 15.6 above, restart from the associated Regrouping TC (OUT) with the same amount of cumulative lateness. Lateness is only accumulated between two successive MCs.

Competitors may check in in advance of their due time at the MC (IN) at the finish of the rally in accordance with NCR Ch.13 App.13 Art 3.9c. There will be a holding control prior to the finish, at which early check-in is not permitted.

15.13 Other Controls

Other controls are classified as follows:

PASSAGE CONTROL (PC)

At certain points indicated in the Road Book, the Organisers may establish a PC. Competitors failing to provide the necessary documents at any PC will be deemed not to have reported there and may be disqualified (NCR Ch.13 App.8 Art.1.3(a) and Articles 15.5 and 15.6). Any times recorded at a PC will be used only to ensure that Competitors have followed the requirements of the Road Book, and not to calculate Cumulative Lateness.

ROUTE CHECK (RC)

The Organisers may also establish checks along the route in accordance with NCR Ch.13 App.2 Art.2.12.

Article 16 Subjective Route Notes

16.1 Pre-event practising or testing over the Special Stages on this event is forbidden (NCR Ch.13 App.9 Art.1.7 and App.12 Art.3.27). The organisers may at their discretion and with the agreement of the Stewards of the Meeting refuse a start to any competitor who is found to have carried out unauthorised practice or reconnaissance over the route of any Special Stage. Those living on a Special Stage, or who may have cause to drive along a Special Stage for whatever reason, should inform the organisers in advance.

16.2 The possession of pace notes, as defined in NCR Ch.1 App.1, by a Competitor during the course of the rally, whether or not they relate to the stages being used on the rally, is forbidden. This does not preclude the use of Ordnance Survey Maps specified in the regulations as being necessary to complete the route.

16.3 Subjective Route Notes

16.3.1 Competitors may purchase subjective route notes from Scotmaps or onthepacernote. Only the Route Note Documents provided for the 2025 event by Scotmaps or onthepacernote may be used (NCR Ch.13 App.10 Art.7.42). This does not, however, preclude competitors from making notations thereon to suit their own purposes. In all circumstances, competitors are advised that the Organisers accept no liability or responsibility whatsoever in the use of the subjective route notes.

16.3.2 Contact details for Route Note suppliers:

16.4 The Organisers may set up checks at certain locations where Competitors and competing cars will be searched. The penalty for being found in possession of unauthorised pace notes, or refusing to allow a search for these to be made, is disqualification, in accordance with Article 18.4(q) of these Regulations. The Organisers request the co-operation of all Competitors in order to reduce any delay.

16.5 From the date of publication of these Regulations, where it is established that a Competitor or Entrant, their agent, representative or any other person has caused, arranged, or directed to be carried out unauthorised reconnaissance, inspection or noting, in any form, within the area covered by maps listed in these Regulations before Competitors have covered the stages, the Competitor concerned will be disqualified from the results or refused permission to start, as appropriate to the

case, and will be reported to Motorsport UK (NCR Ch.13 App.9 Art.1.7). The only exception to this Regulation will be for persons who live on, or whose employment causes them to travel along, a road used on the event (Article 16.1).

Article 17 Servicing

- 17.1** Servicing is defined as work being carried out on the car by any person other than the competing crew, or the use of any part or tool not carried in the competing car (NCR Ch.13 App.18 Art.1). Servicing will only be permitted in the official service area at Jas P Wilson Forest Machines, Dalbeattie by official service vehicles, identified by official plates, in areas set aside for this purpose by the Organisers. The use of management vehicles is **prohibited**.
- 17.2** The main service park is on tarmac/gravel at Jas P Wilson Forest Machines, Dalbeattie, where all teams will be allocated a service bay measuring 8 metres x 8 metres. One Service vehicle will be permitted per competing car. The Service vehicle, the trailer and the competing car must all together fit within the allocated bay. Requests for additional space must be made in writing to the Organisers. Such space, if available, will be allocated on a 'first come. first served' basis, and the Organisers may make an additional charge to accommodate such requests. Additional space will not be provided for trailers, which should be removed to the trailer park (17.13).
- 17.3** Each Service vehicle must be registered with the Organisers by giving its vehicle registration number. An official plate will be issued for each vehicle. This plate must be affixed to the bonnet or exterior surface of the windscreen of the vehicle in clear view. It is not sufficient to leave the official plates lying on the dashboard. The use of a Service Plate on a vehicle not previously registered with the Organisers is an offence for which a penalty of disqualification will be applied.
- 17.4** Service Areas will only be accessible to Competitors and Service vehicles bearing Official Plates. All other areas will be 'out of bounds' to Service Crews and their vehicles. If a Service vehicle is observed in any such area, whether it is the vehicle registered in accordance with Article 17.3 or otherwise, the associated competing car will be disqualified in accordance with Article 18.4(o) of these Regulations. Servicing off route is strictly forbidden. Smoking in Service Areas and Refuelling Zones is strictly forbidden.
- 17.5** Crews may work unassisted on their own cars, using only tools and spare parts carried in their car, in 'No Service' Areas, except:
- within 100 metres of any Control
 - between a Special Stage Arrival Control and a Special Stage Start Control
 - in any Parc Fermé
- The only work permitted in these areas is to carry out the following unassisted:
- clean lamp glasses, windscreens, windows, identification markings and vehicle registration numbers.
- The only exception to this will be in Parc Fermé on safety grounds, when work may be carried out with written permission from the Clerk of the Course, provided that the repair work is supervised by a scrutineer.
- 17.6** Service Crew will be subject to the same regulations as Competitors regarding noise, driving manners, etc., and Judges of Fact and Driving Standards Observers will be instructed to note any infringements. Competitors are responsible for ensuring that their Service Crew Personnel understand and comply with this Regulation. **For the avoidance of doubt, any verbal or physical abuse towards any Rally Officials by Service Crew may result in penalties being given to the Competing Crew up to and including disqualification (NCR Ch.13 App.18 Art 1.14).**
- 17.7** Service vehicles must park as directed by marshals at the Service Area. Failure to comply will result in penalties which may go as far as disqualification.
- 17.8** Any crew operating a management vehicle (Article 17.1) at any point during the event will be penalised in accordance with Article 18.4(o). Judges of Fact will be appointed to report breaches of this Regulation.

17.9 All competitors must use an impermeable tarpaulin sheet under the car they are servicing. This applies in all Service Areas. Failure to comply will be penalised by a time penalty of 10 minutes for the first offence, a time penalty of 20 minutes for the second offence and disqualification for a third offence.

17.10 All competing crews must use a refuel zone at each service area. Vital Equipment will be attending the event.

Competitors wishing to order fuel from Vital Equipment should telephone 01981 241169 or use the order form at:

<https://www.vitalequipment.co.uk/> .

17.11 **The use of any form of pin to secure structures on the tarmac at Jas P Wilson Forest Machines, Dalbeattie is strictly prohibited. Failure to comply will be penalised by a fine of £250 per pin. The responsibility for the cost of any repairs to the tarmac surface at Jas P Wilson Forest Machines, Dalbeattie (howsoever caused) will rest with the competitor concerned. The use of pins in the gravel areas at Jas P Wilson Forest Machines, Dalbeattie should be avoided.**

17.12 The use of helicopters, drones or light aircraft by any competitor or persons associated with any competitor over the route or stages used during the duration of this event is prohibited. Breach of this regulation will be penalised by disqualification and offending competitors will be reported to Motorsport UK in accordance with NCR Ch.13 App.18 Art.3.3.

17.13 There will be a separate trailer park in the vicinity of Jas P Wilson Forest Machines, Dalbeattie. The Organisers are not responsible for loss of, or damage to, any trailer so parked.

17.14 Cars must be fitted with towing eyes at front and rear (NCR Ch.13 App.16 Art 3.14) to allow recovery by official licensed vehicles. Recovery vehicles will only tow competition cars as far as the forest exit, as the terms of their insurance do not permit towing on the public highway. From this point onwards, recovery is the responsibility of competitors and their service crews.

Article 18 Penalties

18.1 Competitors will start with zero penalties. Classification for the results will be determined by total time penalties, the winner being the Competitors with the fewest total time penalties.

18.2 In the event of a tie, the winners will be the Competitors who have completed the greatest distance from the start with the fewest Stage Penalties.

18.3 To be classified as finishers, Competitors must complete all special stages and report to all controls without accumulating over 15 minutes of lateness or incurring a penalty of disqualification.

Article 20 Insurance

20.1 Vehicles must have vehicle insurance in place which provides, as a minimum, Third Party Liability cover that complies with the Road Traffic Act. This can be either by extending an existing motor policy to cover the event or, by purchasing additional cover, providing under the Event Road Section Scheme as an adjunct to an existing motor policy. If a competitor uses an extension to their existing policy, they will be required to provide a declaration that the cover complies with the requirements of the Road Traffic Act. Any responsibility for a fraudulent or misleading declaration about existing cover lies with the competitor.

20.2 If a competitor wishes to purchase additional cover via the organisers, they can do so prior to the event providing they comply with the following.

Age 19 years or over

Has held a full driving licence for a minimum of 6 months

Has no more than 6 points on their licence and no bans of any kind

Has had no more than 1 fault claim in the last 3 years

21.1 Competitors must carry an A4 size white board with a red 'SOS' on one side and black 'OK' on the other. The letters must be a minimum of 12 cm high with a minimum stroke width of 1.5 cm. In the case of an accident where urgent medical attention is required, where possible the red 'SOS'

board should be immediately displayed to the following cars and to any helicopter attempting to assist. The SOS function on the tracker should be activated.

Any crew which has the 'SOS' board displayed to them or sees a car which has sustained a major accident where both crew members are seen inside the car but is not displaying the red 'SOS' board, shall immediately and without exception stop to render assistance, and must activate the SOS function on the tracker.

All following cars shall also stop. **The second car at the scene shall proceed to inform the next radio point.** Subsequent cars shall leave a clear route for emergency vehicles. The Clerk of the Course may award a discretionary time to any competitor(s) delayed by making such a report.

Any crew which is able to, but fails to, comply with the rule will be reported to the Clerk of the Course who may impose penalties, and may be reported to Motorsport UK.

In the case of an accident where medical intervention is not required, the 'OK' board must be clearly shown by a crew member to the following vehicles and to any authorised helicopter attempting to assist. If the crew leaves the vehicle, the 'OK' board must be displayed so that it is clearly visible to other competitors.

Each competing car must carry a red reflective triangle which, in the event of the car stopping in a special stage, must be placed in a conspicuous position by a member of the crew at least 50 metres before the car's position, in order to warn following drivers. Any crews failing to comply may be subject to a penalty at the discretion of the Clerk of the Course. This triangle must be placed even if the stopped car is off the road.

The road book will contain a page giving the accident procedure. Any crew retiring from the rally must report such retirement to the organisers as soon as possible, save in the case of force majeure. Any crew failing to comply will be subject to a penalty at the Clerk of the Course's discretion. Competitors who misuse the 'SOS' or 'OK' board will be penalised and may be reported to Motorsport UK for further penalty.

- 21.2** The penalty for displaying an 'SOS' Board when urgent medical assistance is not required is disqualification, with a report being submitted to Motorsport UK.
- 21.3** The penalty for not stopping at an 'SOS' Board is disqualification.
- 21.4** This system does not exempt competitors from the responsibility of advising officials if they are aware of a fellow competitor being off the road or in some difficulty.
