SS 1 – 6 Stage Road Inspection

The CoC inspected stages between 8:15 and 9:45 this morning. The following road conditions were observed:

SS 1: ~ 1-2 inches of fresh snow covering yesterday's base which was a mix of hard pack, slush and some dirt. The overnight low temperatures and the fresh snow were helping harden the base.

SS 2: Fresh plowing from the start to ~.90 miles consisting of a hard snow/ice base with some sanding. Then unplowed like SS 1 until 3.54 where plowing and sanding resumed. From 3.77 to the finish again unplowed like SS 1.

SS 3: Unplowed like SS 1 from the start to mileage 1.65. Fresh plowing and sanding like at SS 2 start from there to the stage finish.

Competitors should note that the Road Commission is active and while it is unexpected, it is possible that the unplowed sections might change between now and this afternoon.
