

2023 Sno*Drift Service Area Assignments 2-6-2023

This information supplements that provided in the Service Information document that was previously distributed. Please reference both, the Rally Guide and the Supplemental Regulations as you go about your activities this week.

The attached pages identify the layouts for the 4 service lots, the assignment of cars to the spaces, and identify the load-in times for the spaces.

Please respect the load-in times as they serve to reduce wait times and ensure that teams can maneuver with a minimum of interference from others.

If the east drive to the school is full, please pull into the lot across the street so that you do not block the main road past the school.

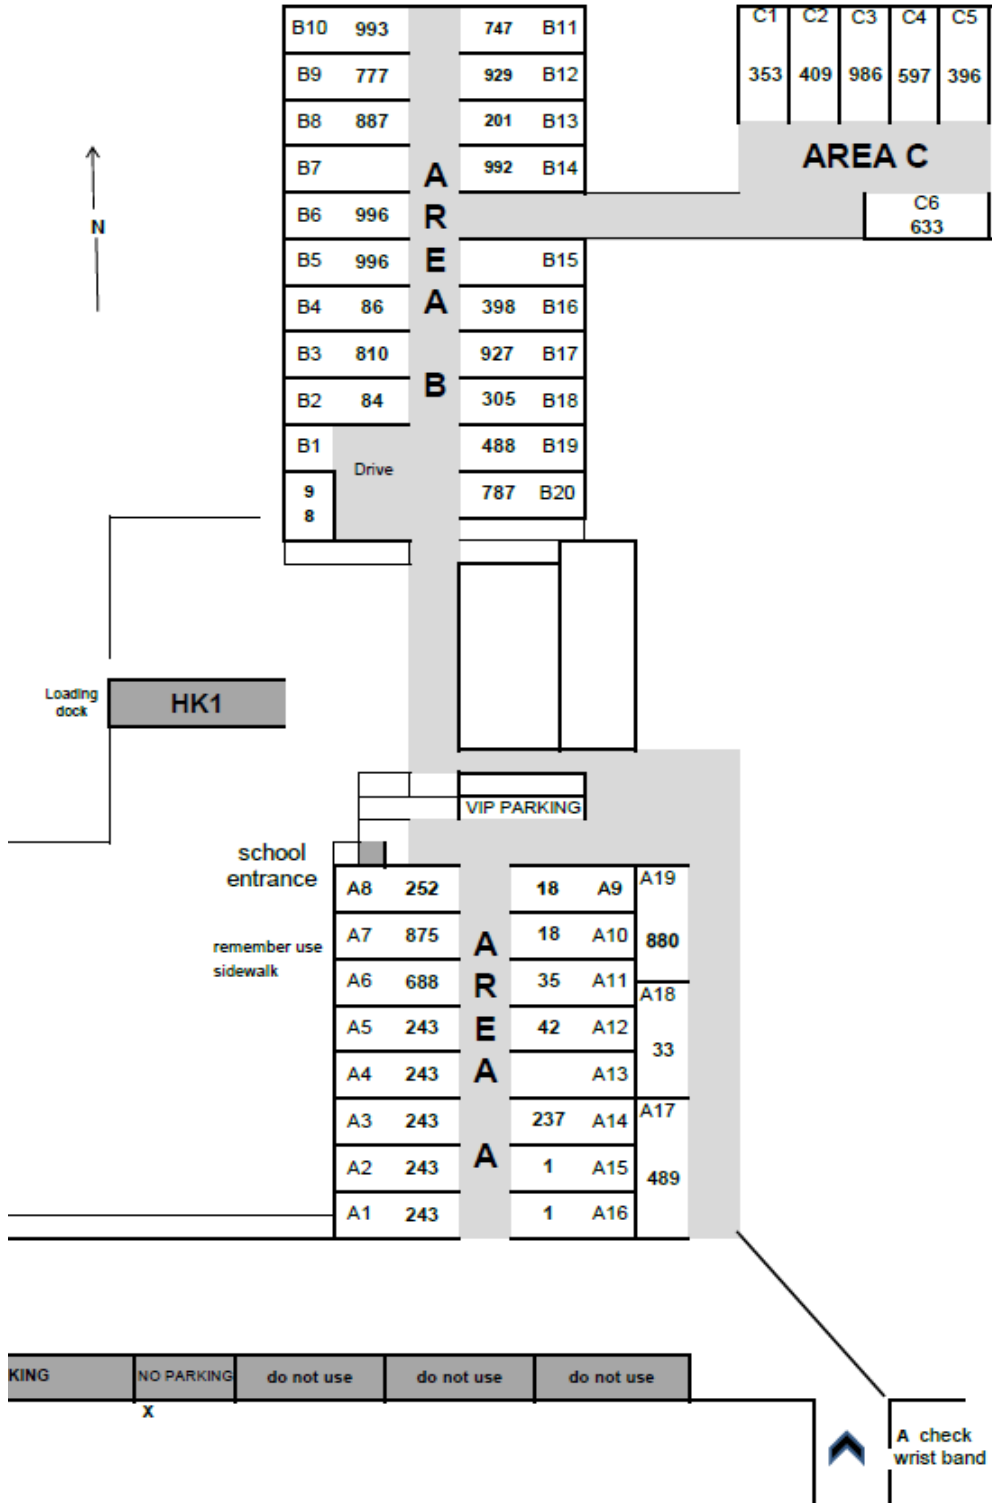

If for some reason your team cannot make the designated load-in time please email joepoz@yahoo.com to let him know approximately when to expect your team.

As a reminder – maneuvering space in the lots is such that teams should unload their cars before loading-in their service vehicles. The lot across from the school is available for that activity.
