At Time Control stations, the time card must be handed to the official, who will make all time entries. Competitors must not enter times on the card themselves.

3.4 Safety

SOS & OK Procedures

Warning Triangle: If you are forced to stop on a special stage due to an accident, mechanical failure, or for any other reason, a warning triangle must be placed in a clearly visible position on the same side of the road as the vehicle, at least 50 metres before the stopped vehicle, to warn following competitors.

SOS Procedure

If assistance is required due to injury, fire, or any other emergency:

Press the SOS button on the tracking device.

Clearly display the SOS board to approaching competitors.

Do not leave the SOS board unattended.

If you see another competitor displaying an SOS board, you must stop immediately and help. If necessary, summon additional help using the tracking device or the emergency telephone number shown in the road book and on the competition number panel.

If it is not possible to call for assistance directly, the information must be passed to the next communications point on the route, which may also be the finish of the special stage.

When requesting emergency assistance, provide the following information:

- Competition number of the affected vehicle
- Number of injured persons (competitors, spectators, etc.)
- Severity of injuries
- Whether anyone is trapped inside the vehicle or pinned underneath it
- Exact location of the incident (road book reference, junction, or other identifying details)
- Any other relevant information (for example, whether the vehicle is on fire, in water, etc.)

Access for emergency services must be kept clear. Competitors arriving at the scene must move their vehicles beyond the accident site where possible. If this is not possible, vehicles must be moved safely to the side of the road.

Retirement from the Rally

If you retire from the rally:

Inform Rally Control immediately.

Return the GPS tracking device and timing transponder as soon as possible to the nearest special stage control point or the Rally HQ.

The retirement notification telephone number is shown on the competition number panel and in the road book.

OK Procedure

If medical assistance is not required:

Display the green OK board carried in the vehicle to following competitors and officials.

Press the OK button on the tracking device.

Remember to press the OK button whenever you stop on a special stage for any non-emergency reason, such as changing a tyre.
