- CP3: Km 305,28

DESCRIPTION

GENERAL INFORMATION:

- RT 1 & 2:
 - Short RT, run in 2022 / not a lot of direction changes to start the day.
- Between RT 1 & 2, transfer section where you cross a canyon - **watch the stones & be careful at Danger 3 !!!**
- After a transfer of 50 km, included 40 km tarmac road (fuel station available), we will attack a 90 km long regularity stage:
 - In this long RT, there are some danger 1, 2 or (even) danger 3 !!! => like usual: no PCI after these notes.
 - Start of the stage = big track, then a slow section at a quarry (stone-pit) with some stony tracks. After this section, the regularity stage contains fast tracks
 - Concentration is the key to success in this stage, because the end of this long stage can surprise some codrivers...
