Service Parks

A Designated Service Park (SR's Art 8.2) is identified in the Road Book. Assisted servicing by personnel from any other vehicle is prohibited outside this service park. However, the crew, using solely the equipment on board and with no external assistance, may perform service on the car at any time, other than where this is specifically prohibited.

Chicanes and Exaggerated Junctions

The position of all chicanes and exaggerated junctions will be marked on the road prior to reconnaissance and will be constructed on the event using either straw or silage bales. Entry may be either on the left or right of the first bale and will be indicated by a chevron.

Speed limits

The virtual chicane are like a forward facing speed camera in that it detects a car, monitors its speed and makes a decision based on that speed. The detection range is around 150m.

The main screen when viewed from 300m away will be blank, as soon as the unit detects a vehicle the screen will flash alternate orange squares, the colour will be orange and flashing and contain the words SLOW and DOWN, the orange colour is a warning colour and the flashing is to assist people who are colour blind as a flashing screen means SLOW DOWN even if you cannot determine the colour.

This flashing will continue until the vehicle slows down to less than the required speed (20mph) at which point the screen will change to say "Speed OK, GO" on a green background, like this:

If the vehicle does not slow down to less than the required speed (20mph) the display will keep flashing the orange panels until the vehicle leaves the detection zone.

A named Judge of Fact will be present at the VC with a suitable checksheet to write down, time, car number and whether the green light came on or not! The marshal check sheet when used alongside the data packet from the VC unit and the tracking data from the car provide 3 separate items of information to support the application of a penalty.

- 1) All competitors must be conversant with **FIA Regional Rally Sporting Regulations Article 53 Competitor Safety** and **Article 12.6.4 of the Ulster Rally Supplementary Regulations**.
- 2) If you are involved in, or encounter the scene of an accident that requires immediate medical assistance, you should **press and hold the SOS button on your tracking device for 7 seconds** until the vibration confirms the transmission of the request. Repeat this again after a few seconds. This will notify Rally Control to stop the stage and deploy emergency services.
- 3) When a red "SOS" is displayed by another competitor it is **MANDATORY** to stop and assist the crew requiring help. **You are responsible** for helping the injured and making sure that safety services are mobilised as quickly as possible using the tracker device and mobile phone if there is coverage.
- 4) The first crew to arrive at the scene of an accident must stop and inform Rally HQ. In addition to the tracking system and assuming there is mobile phone coverage you **MUST** phone the Event Emergency Number:

+44 (0) 7745 142 083

- 5) The next car to arrive must take the following information to the **NEXT** radio post, which may be the finish control:
 - competition number of the crew involved
 - if and how many crew members or spectators are injured
 - if any crew member or spectator are trapped in or outside the car
 - location of the accident, i.e. the closest road book post number
 - any other vital information, i.e. fire, water.
- 6) The following cars must stop if the red **"SOS"** is displayed. All competitors **MUST** park leaving a clear route though to the incident for emergency vehicles.
- 7) All competitors stopped in a stage must place their red triangle at least **50m** before where the car is stopped even if the car is clear of the road.
- 8) If you retire you **MUST** inform the organisers using the following telephone number:

+44 (0) 7835 464 485

- 9) All competitors retiring from the event are obliged to hand in their time card to the nearest control point as soon as possible.
