ECO RALLY SCOTLAND

1 – 2 August 2026

Date:	**24.7.2026**	Time:	**21:00 hrs**
Subject:	**COC COMMUNICATION NO: 2**	Document No:	**3.2**
From:	*The Clerk of the Course*		
To:	*All competitors / crew members* *Number of pages: 1 Attachments: 6*		

1. CALIBRATION ZONE

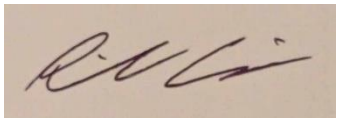

Please find attached, the road book for the Calibration Zone.

The event road book was prepared using a Rabbit PRO device, installed in a front-wheel drive vehicle, with an average taken from two magnetic sensors / probes – one mounted on the left-front wheel, and the other on the right-rear wheel.

In the Calibration Zone, as in the Regularity Stages of the event itself, the vehicle has been driven on the left side of the left lane, attempting to maintain a consistent distance to the left-side extremity of the road (grass verge / white line / etc).

In the Regularity Stages, care has been taken to ensure consistency of the measures and the driving line, travelling always on the left side of the road. However please note that on the liaison sections, there may be some small variations in driving line, caused by negotiation of daily traffic conditions.

A video recording of the Calibration Zone can be viewed at
