SYMBOLS KEY

THE FOLLOWING STEPS SHOULD BE TAKEN IF A STOPPED COMPETITION CAR IS ENCOUNTERED WHERE THE OK AND TRIANGLES ARE NOT DISPLAYED:

1. Competitors must stop until the safety of the occupants of the stopped vehicle has been ascertained and the set-up of the stopped vehicle's triangle has started. If medical attention is needed or there is a fire, confirm SOS on RallySafe on your RallySafe monitor and display a SOS sign and triangle to ensure the following vehicles arriving at the scene will be stopped safely.
2. The first car at the scene of an SOS or emergency must stop and render aid to the best of their ability. They may also assist with displaying the SOS to following vehicles and setting up triangles.
3. The second car that arrives must collect pertinent information regarding the incident and proceed to the next radio point in the direction of stage traffic. The next radio point may be a marshal point or timing control. Relay the relevant information to the radio operator and stay at that location until released by the radio operator.
4. All other cars that arrive to the scene of an incident must stay at the location, unless there is imminent danger. Ensure the roadway is kept clear for emergency vehicles to respond to the incident. Competitors may leave only after being released or escorted by an event official.

OVERMOUNTAIN RALLY TENNESSEE

BIG CLIFTY

NOTES FROM THE CLERK OF THE COURSE:

Starts steeply uphill with large drop on left side. Crests over the mountain at mile 1.93.

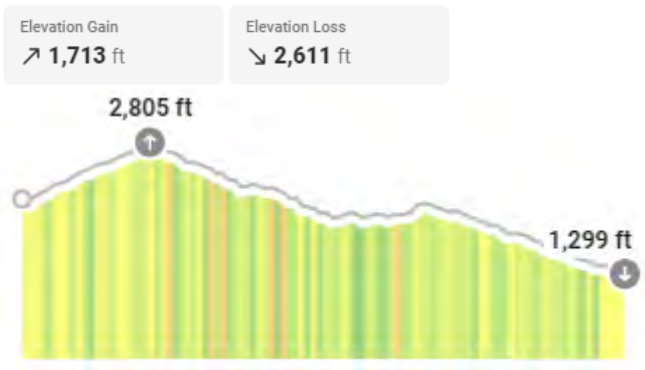

After cresting mountain, stage becomes rough with sections of loose dirt. Large rocks embedded in surface and possible wash-out sections.

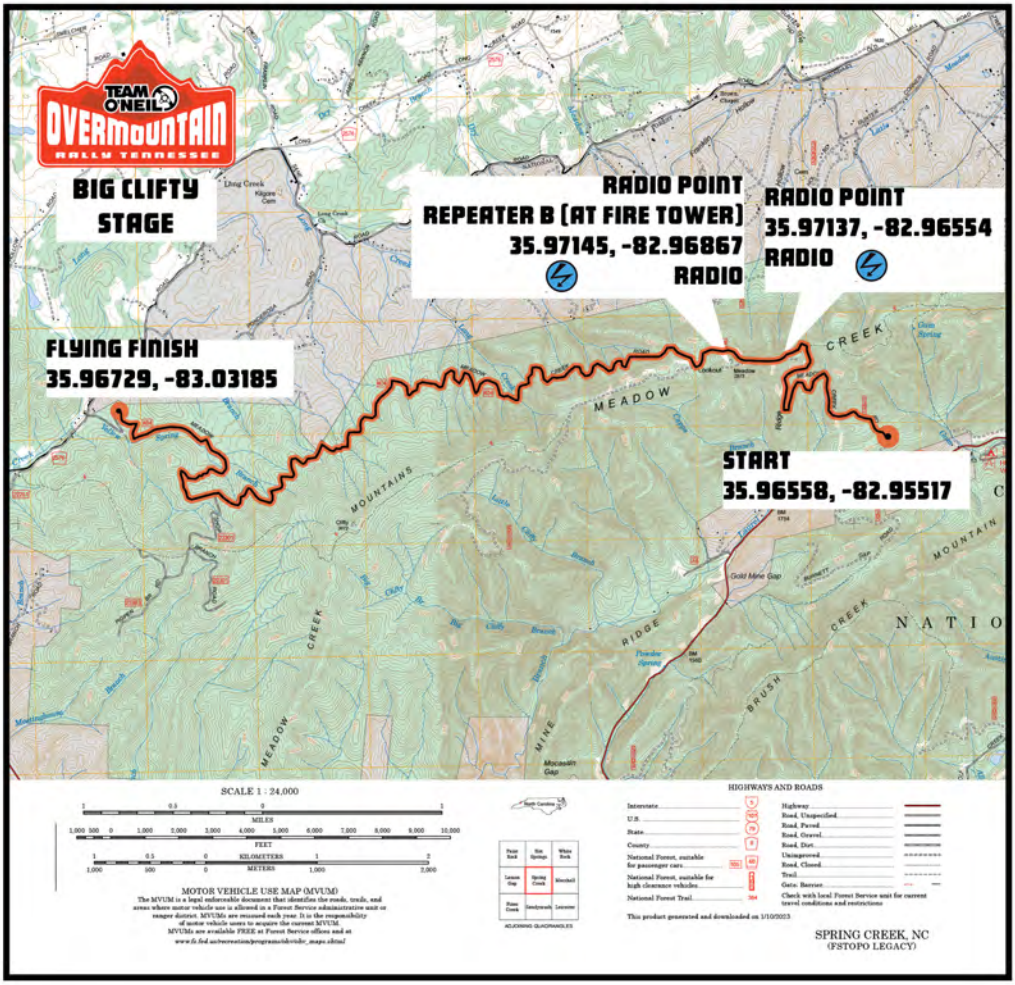

Don't let Big Clifty claim you as a victim. This is the toughest test of the rally.

All Danger DOTS and Triple Cautions are included in this route book and will have signage on race day. Double and Single cautions are noted in this book as well. Take care to confirm all DOT locations are noted in the pace/ stage notes.

NOTES FROM THE CLERK OF THE COURSE:

Starts steeply uphill with large drop on left side. Crests over the mountain at mile 1.93.

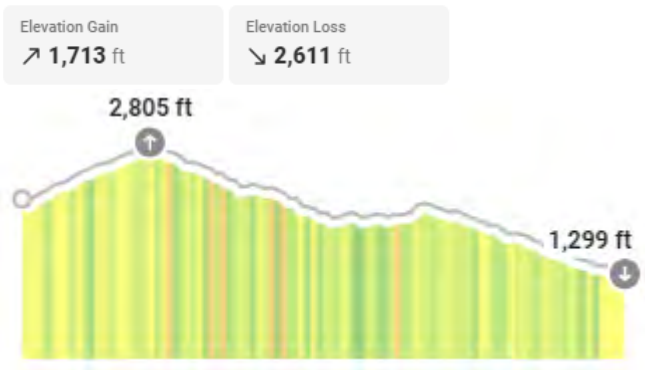

After cresting mountain, stage becomes rough with sections of loose dirt. Large rocks embedded in surface and possible wash-out sections.

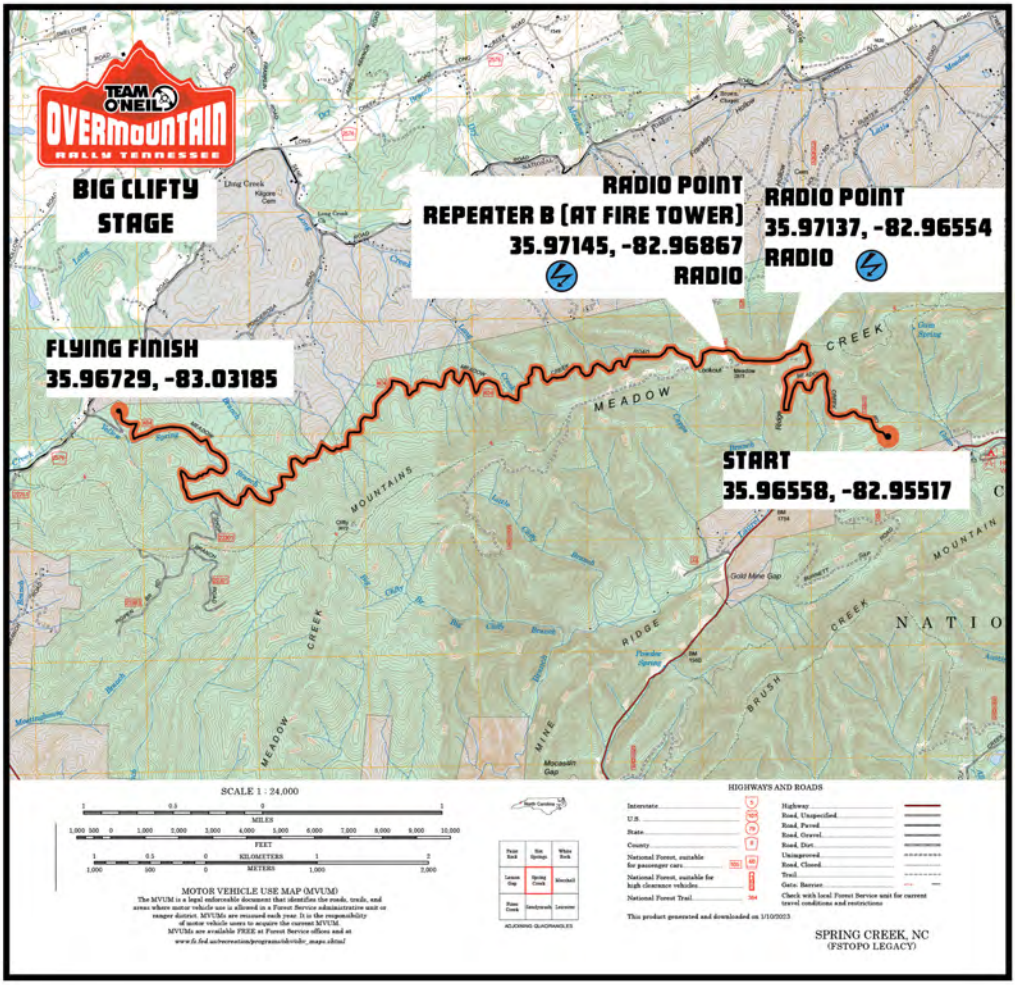

Don't let Big Clifty claim you as a victim. This is the toughest test of the rally.

All Danger DOTS and Triple Cautions are included in this route book and will have signage on race day. Double and Single cautions are noted in this book as well. Take care to confirm all DOT locations are noted in the pace/ stage notes.
