1 Competition Vehicle Recovery

Teams are reminded of section 15.10 in the supplementary regulations copied below.

Service crews **must notify the CRO in person or via phon**e when they leave the service area to retrieve a car. Recovery routes will be available in the Service Crew Packet**. Service crews will need approval to retrieve a car during the competition period of each day of the rally.**

This also this extends to retrieving the competition crew. This regulation is in place because of the narrow access roads for many of our stages and the very limited cell phone coverage in the area of the stages. The CRO team is prepared to respond rapidly if you need to get them.

We had several incidents where service teams left service for cars that were then moved by the sweep teams and created confusion about where the different parties where going to be.

Teams are reminded that car retrieval is not part of the defined service route and they should consider GCR 7.1.10
