

IMPORTANT NOTICE TO COMPETITORS

Day 1 of the Wilton Recycling Donegal International Rally has been a massive success,

Unfortunately, a large number of non-button presses on the tracking console have occurred today, resulting in delays and stages needing to be held.

We ask that if you have stopped, are changing a puncture, experiencing a mechanical issue, or have been involved in an incident, you use the tracking console as your first action.

These button presses are critical for the team in Rally Control to ensure your safety, the safety of others, and the smooth running of this major event.

Thank you all for your cooperation so far, and we look forward to two more fantastic days in Donegal.
