

2025 SOFR Radio Plan

- 1) Use Primary Repeater (All repeaters are same frequency)
 - a. Any issues that cannot be fixed over the net – call Jeremiah 740-703-4251 and he will coordinate repairs with Bill/ Radio Justin at the repeater.
 - b. There are 3 repeaters and 2 duplexers at the fire tower to swap thru
 - c. If all repeaters fail, we will use this simplex plan.
- 2) Shawnee (Friday)
 - i. Repeater antenna is used with an 85-watt simplex radio with adaptor
 - ii. Net Control Moves to location C (Has cell coverage)
 - iii. 000A and 00B (or assigned extra radio personnel) move to locations D & E to become relay stations
 - iv. Service Radio stays at service and relays with Preston for Rally Safe
- 3) Zaleski (Saturday)
 - i. Repeater antenna is used with an 85-watt simplex radio with adaptor
 - ii. All radio locations can hit tower on Simplex
 - iii. Net Control stays at service – the fire tower is used to relay – if this is problematic, move net control to fire tower. (Has cell coverage)
