

## ANNEX 5 : NEUTRAL ZONE – S.S. Vaux-et-Borset

Following the Rally 4 Porsche 2023, a neutral zone has been set up on the special stage of Vaux-et-Borset (EC 3/6/9).

The participants of the "Regularity VHRS" competition are largely familiar with this type of limited speed zone, but we know that this is less the case for the participants of the speed competitions (Divisions 1-2-3-4, Prov'Historic Classic and Prov'Historic SR just like the participants of the "Histo-Démo").

Although there is no unanimity about it, it is not bad for those who regret this decision, to recall the dramatic events at the end of the 2022 season. These events have prompted us to think about the future organization of sports competitions on public roads.

Thanks to this reflection, certain agreements were reached with the municipal authorities.

The race management and those responsible for relations with the participants are at your disposal for any useful questions about these "neutral zones" and the entirety of these regulations.

In addition, the "Tripy" devices provided to you will also indicate these "neutral zones" as follows:

### LIMITED SPEED ZONE DZ-FZ

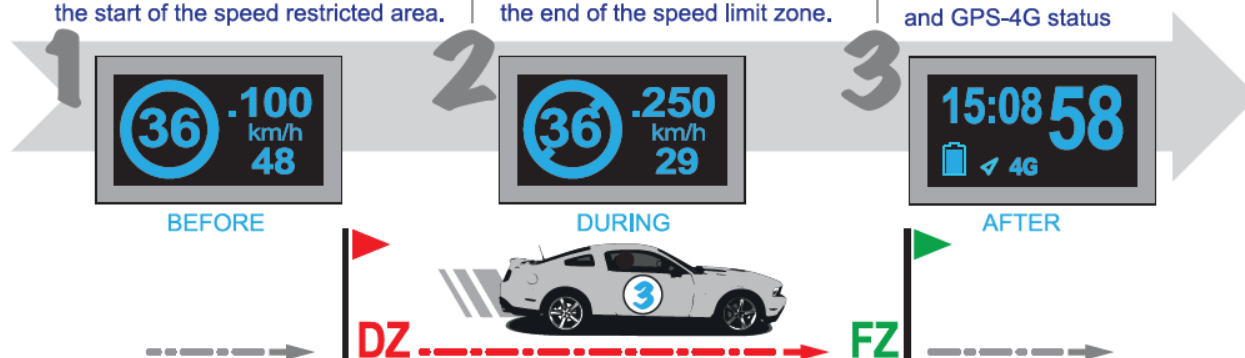

The automatic audible alarm indicates :

- > **Approaching within 200m of a speed limit zone (e.g. DZ-36)**
- > **Exceeding the speed limit in the DZ (continuous beep) until the end of the zone (FZ-36)**
