Bulletin NLR26/5.01 UPDATE - 12 Hour - FUEL

ALL The Biker Lawyer ACU NL Endurance Teams

The circuit will have fuel available at the circuit pumps throughout the event.

Fuel available : Super/Premium Unleaded (97 RON)

Fuel price : 185p/litre

Fuel can be paid for at the pump using cash or major credit/debit card (AMEX NOT ACCEPTED)

The circuit tanks will be filled ready for the start of Friday, we advise teams to fill any fuel cans on Friday evening as the tanks will be filled again on Saturday morning and this will allow you to have the greatest supply of fuel possible across the event.

Teams are reminded that no more than 25 litres of fuel should be stored in a garage, when storing fuel, this should be done with safety in mind at all times. **EVERY working vehicle in the paddock should carry a WORKING 2Kg dry powder extinguisher as per ACU regulations.**

We are ensuring this facility is available for teams and we advise all teams not to bring enough fuel for the entire team to complete the 12 hour race as this will present a significant fire hazard and teams should be extra vigilant.

END
