ACU approves 2026 Endurance Championships support

No Limits Racing is delighted to confirm that the ACU Road Race Commission officially approved the 2026 ACU Endurance Championships earlier this week. This approval cements the series as the UK's premier platform for endurance motorcycle racing.

In addition, the event temporarily known as the **"Elite Twin Team Trophy"** will now run under its new title: the **ACU Twin Endurance Championship**. This change reflects the event's elevated status and commitment to competitive twin-cylinder racing.

Further announcements are expected soon regarding the endurance title sponsor for 2026, as well as the much-anticipated tyre regulations for the endurance and sprint classes.

Stay tuned for more updates as we prepare for another landmark season of No Limits Racing.
