Bulletin NLR26/3.02 - Update to Endurance Race Suspension Regulations

ALL The Biker Lawyer ACU NL Endurance Teams

In addition to the current regulations, the following items are to be added with immediate effect:

- Any riders who are unable to enter the pit lane following the red flag being displayed and subsequently cross the finish line, will be placed at the front of the restart order, in the order they cross the finish line following the red flags being displayed.
- Should a rider crash before entering the pit lane, they will be placed at the back of the restart order.
- Once riders have started to enter the pit any subsequent riders that pass the pit lane entry will be placed at the back of the restart order (prior to any crashed machines or machines in pit lane).
- For the avoidance of doubt, once flags have been displayed, any passings of timing control lines will not be counted.

The Endurance Sporting Regulations will be updated prior to the closing date for Round 4.
