EAST RIDING STAGES 2025

Yorkshire's first closed road stage rally

Welcome to the East Riding Stages Rally 2025.

This road book is intended to provide you with the necessary information to have a safe and enjoyable event. Please read the notes that follow and if you have any queries, please contact an official.

Road Book

Not all junctions have been included in this road book. Where there is no instruction given, continue along the road on which you are travelling. Names and signposts are those displayed at the time of route survey and the organisers will not accept any liability for subsequent changes.

Driving Standards

Please observe ALL speed limits and drive with care between the stages. You must obey all traffic lights exiting the Market Place. Do not queue jump at any point. Driving Standard Observers will be present, especially in Beverley.

The Police are very co-operative and WILL be patrolling the route using radar checks. The organisers will not have any sympathy or tolerance with those who are breaking the law.

Remember: Local traffic will be using the public highway between stages. Please be considerate and let other road users pass where the road is narrow. Use passing places.

On no occasion must competitors warm their tyres on the public highway before the arrival control for any stage.

Competitor Safety Information

If you are the first Competitor on scene:

If the crew are still in the vehicle and the vehicle is on fire **GET THEM OUT IMMEDIATELY.**

If the crew are still in the vehicle, are responsive and there is no risk of fire:

- Approach from the front, look them in the eyes
- Do they seem aware of their surroundings?
- Speak to them, ask their name - do they respond?
- Any pain, loss of feeling - if yes keep them where they are!
- Keep them calm and keep them talking.
- **DO NOT MOVE THEM UNTIL PROFESSIONAL HELP ARRIVES.**
- Do nothing else

If the crew are still in the vehicle, are unresponsive and there is no risk of fire:

- Stop any life threatening bleeding by applying direct pressure/plugging the wound
- Ensure an open airway
- Immobilise the head and c-spine (neck)
- Check if they are breathing
- Treat any non-life threatening bleeding

DO NOT REMOVE THEIR HELMET UNLESS THERE IS NO OTHER WAY TO ENSURE AN OPEN AIRWAY.

If the crew are out of the vehicle:

- Do not grab hold of them - they might be unaware of what is happening and become combative.
- Guide them to a place of safety away from the incident and other competitors.
- Speak to them, ask if they are OK?
- Keep someone with them.
- Once in a safe place, assess them for injuries:
- Are they aware of their surroundings?
- Any signs of injury / are they experiencing pain?
- **DO NOT LET THEM WANDER AROUND, BUT KEEP THEM UNDER OBSERVATION**

Afterwards please write a short report for the organisers and either hand it to the first control official that you reach or to the Competitor Liaison Officer.

This report should cover the facts as you know them and include times of the incident starting and when you left the scene; always include your own details so that the organisers can, if necessary, contact you.

Use of SOS & OK Boards (Motorsport UK NCR Chapter 13 App 10 article 7.10)

Competitors must carry an A4-size white board with a red SOS on one side and black OK on the other (letters to be a minimum of 12cm high with a minimum stroke width of 1.5cm), with means to secure them on display for oncoming vehicles.

In the case of an accident where urgent medical attention is required, the red SOS sign should be displayed as quickly as possible to alert following cars.

Any crew that sees a red SOS sign displayed on a car, or sees a major accident where both crew members are inside the car but not displaying the SOS sign, **MUST IMMEDIATELY AND WITHOUT EXCEPTION STOP TO GIVE ASSISTANCE.**

All following cars must also stop and **THE SECOND CAR ARRIVING AT THE SCENE MUST INFORM THE NEXT RADIO POINT.** Subsequent cars must leave a clear route for emergency vehicles. The Clerk of the Course may award a discretionary time to any Competitor delayed in such circumstances. Any crew which is able to but fails to comply with the rule will be reported to the Clerk of the Course who may impose penalties.

In the case of an accident where medical intervention is not required, the OK sign must be clearly shown to following vehicles. If the crew leave the vehicle, the OK sign must be left clearly visible to other Competitors. Any crew failing to comply will be subject to a penalty at the Clerk of the Course's discretion.

Competitors who misuse the SOS or OK signs will be penalised and may be reported to Motorsport UK for further action.

Each competing car must carry a Red Warning Triangle, which in the event of a car stopping on a special stage, must be placed in a conspicuous position by a member of the crew, at least 50 m before the car's position to warn following drivers. This triangle must be placed even if the stopped car is off the road.

Any crews failing to comply may be subject to a penalty at the discretion of the Clerk of the Course.

Any crew retiring from the rally must report such retirement to the organisers as soon as possible, save in case of force majeure. Any crew failing to comply will be subject to a penalty at the Clerk of the Course's discretion.

Red Flags

Motorsport NCR Chapter 13 App2 article 4.17 - 4.22 On any special stage where extreme circumstances make it necessary to neutralise the competition e.g., where spectator safety is compromised, or to authorise the movement of noncompeting or rescue vehicles, the system of Red signals must be in place. These should be located at mid stage rescue points, all locations where a rescue/emergency vehicle may re-enter the stage following a shortcut and at each mandatory Radio Point (29.5). Red Flags will be displayed at all mandatory Radio Points preceding the incident, only on the specific instruction of the Clerk of the Course or Stage Commander.

Red signals must be prominently displayed (held out steady not waved) by a designated marshal who **MUST** wear a marshals' tabard.

Red Flags shall measure a minimum of 60cm x 70cm.

- (i) Competitors who have been shown a Red Flag will be given a notional time for the stage.
- (ii) The time of the deployment of the Red Flags will be recorded and notified to the Clerk of the Course.
- (iii) No flag other than a Red Flag may be deployed at any point along the route of the special stage.

Chapter 13 App 9 article 7.31. On passing a Red Flag displayed by a marshal wearing a marshals' tabard, the driver **MUST immediately and significantly reduce speed as well as being prepared to stop at any time;** at no time must they overtake any safety vehicle they encounter on the special stage route. The driver must then follow the instructions of any marshals and/or stage safety personnel and maintain this reduced speed until leaving the special stage.

Failure to comply with this rule will incur a penalty at the discretion of the Clerk of the Course.

Radio Points

The location of safety radios is indicated in the Road Book and by boards on the stage. A yellow radio board will be 100m prior to the radio point and a blue radio board at the radio location. There will always be a radio at the stage start and stage finish.

Artificially lightened junctions and Chicanes

These are used to dramatically reduce your speed at that point so that overall average speeds are kept within the required limits. The tulip diagrams indicate their locations. Chicanes will comply with **Motorsport UK NCR Chapter 13 App 12 article 5.5**, with a diagram of the chicane at 300m followed by a 200m and 100m countdown board. Any exceptions will be give in a bulletin.

Service

Servicing is only permitted in the official service area.
Emergency Service is not allowed.

Judges of Fact

These officials will be patrolling the route at all times. You are warned! Penalties will be applied.

Retirements

If you retire during the event, please phone the Competitor Liaison Officer Val Thompson on 07801 705359.

Damage declarations should be completed and uploaded as per the instructions on them.

Results Queries

Any results queries should either be made to the CLO, or by writing the query on your time card and uploading it to results. Remember to write your phone number on the card if you want a reply.

Finally, have a good, safe and enjoyable day

Key to symbols used in this road book.

Road Section		Special Stage	
	Speed Signs. These will show the appropriate speed for the road.		Time Control
	National Speed Limit Applies		Stage Start
	Give Way. Other symbols will be shown as appropriate		Special Stage Finish
	Primary Road Signs These will be shown at a junction or the exit of a roundabout		Stop
	Non Primary and Local Road Signs		Rescue and Medical Location
	Finger signs		Mandatory Radio Location
	Village Names		

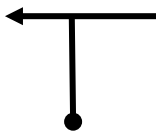

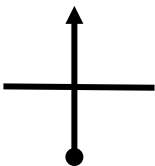

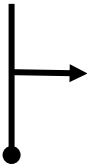

NOTES

- Place names on signs will only be shown to indicate the route you should be taking.
- Dotted lines on the stage diagrams show white roads/tracks. Solid lines indicate metalled roads.
- Where the distance between signs is small, they will be shown in the same box. For example where the speed limit changes just before or after a junction / roundabout.
- Not all junctions are shown. Continue on the road you are on unless you come to a roundabout or have to take a turn.

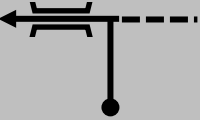

Roadbook printed with thanks to

Road Section example.

Distance		Direction	Information	Miles to SSA
Total	Inter			
0.00	0.00	 1	 Give way at entrance to public highway. Reset Trip if using one.	2.00
1.50	1.50	 2	 Where there are 2 speed signs in a box, the first is just before the junction and the second is just after the junction or roundabout 	0.50
2.00	0.50	 3	 Traffic signals will only be shown at junctions	0.00

Road Section 1: To MTC0 & TC0A

There is no control in either service area during the event.

If you are setting off from the service area to the ceremonial start in the Market Place Beverley, you should allow 17 minutes to get to MTC0.

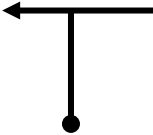

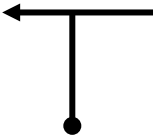

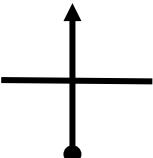

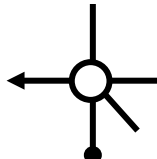

Time from MTC0 to TC0A in the Market Place is 30 minutes. This is to allow you to interact with spectators. **There is no penalty for early arrival at MTC0, but you must ask for your correct due time at MTC0.**

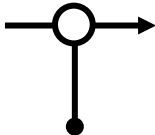

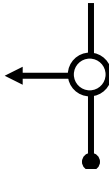

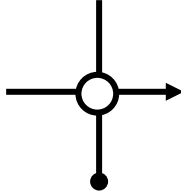

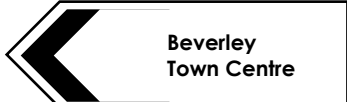

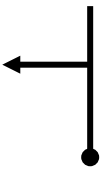

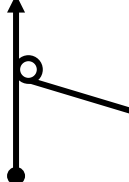

You do not have to start from the service area if you do not want to.

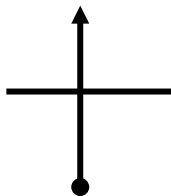

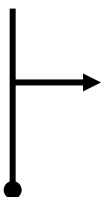

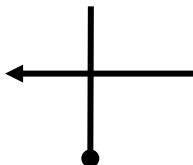

For competitors in service area 'A' follow the mileages shown in black.

For competitors in service area 'B' follow the mileages shown in **RED**.

The mileages will show in red and black for all visits to and from Service as the distances are different.

21.99	0.38	39 	 	0.30	
22.29	0.30	40 	Use entrance B if allocated to service area B	0.00	

Service Area

You have 51 minutes to get to the arrival of SS5.

This allows you to have 35 minutes for service, 8 minutes to get from service to the arrival of SS5 and 8 minutes for refuelling.

Refuelling must be done in the designated area as shown on the diagram below or at the petrol station located at tulip 5 on the road section to SS5A.

Competitors in service area A should complete their servicing, refuel and exit via entrance A

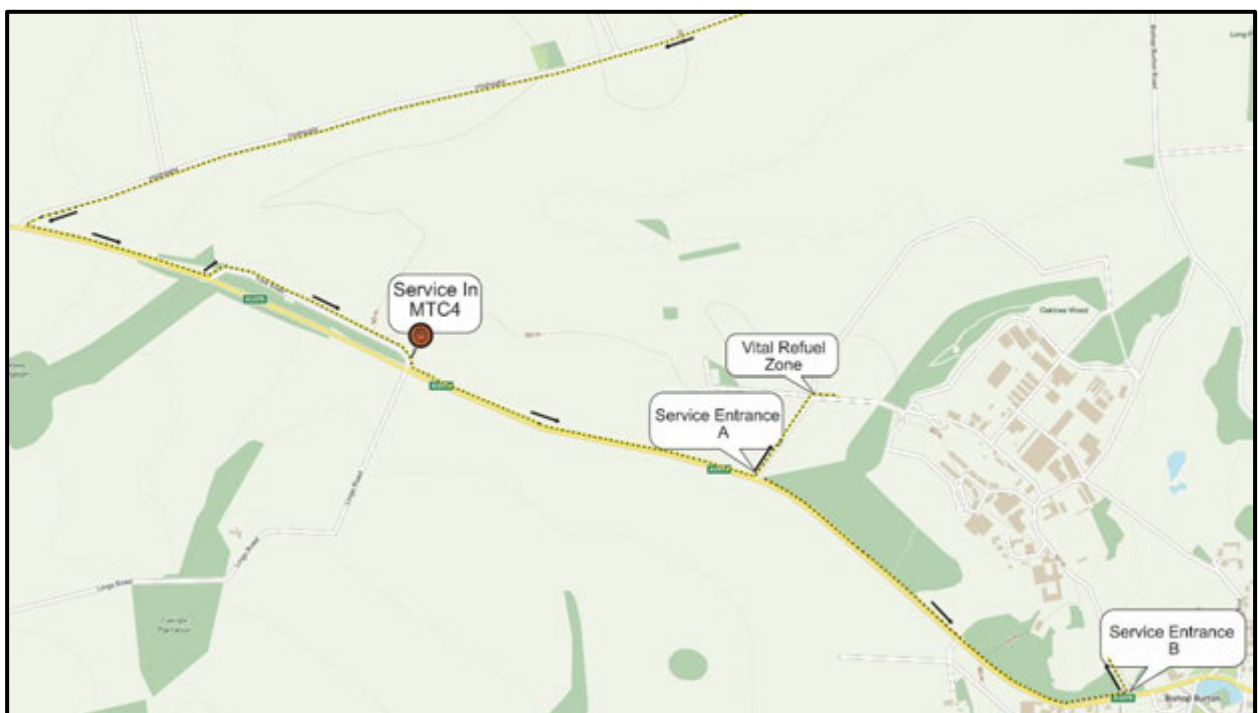

Competitors in service area B should drive through the site if they require refuelling either through Vital Equipment or have left their fuel supply with them. You should then leave via entrance A.

Those using pump fuel from a service station or not requiring fuel should leave the service area via entrance B

Note: from service to fuel for those in service area B is strictly one way. Follow the arrows.

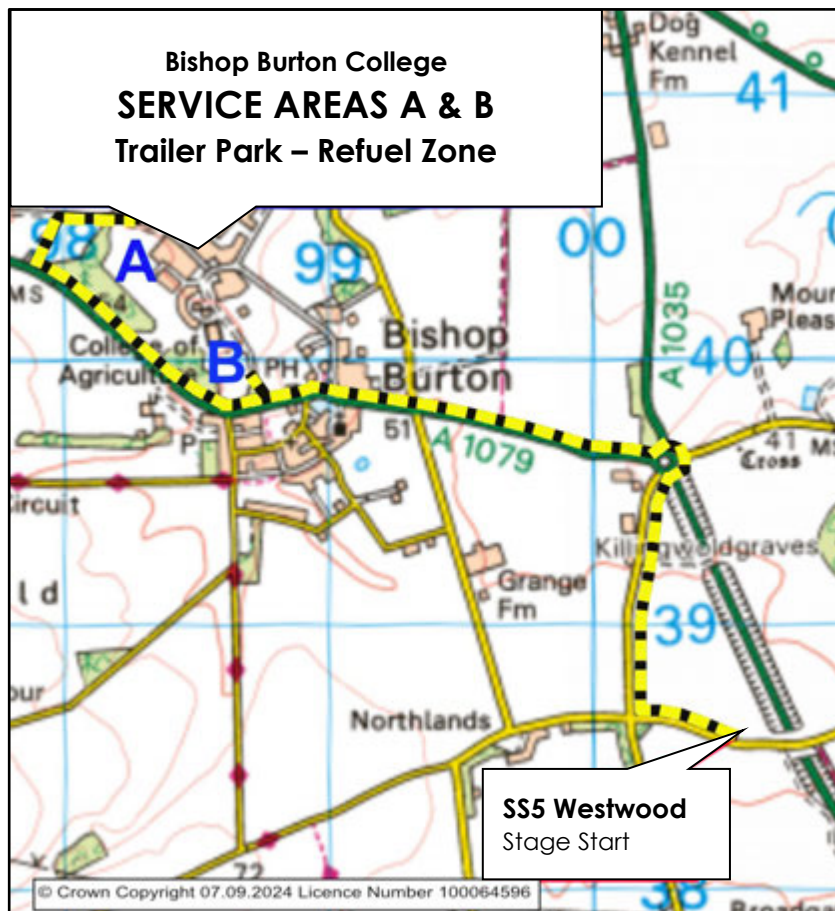

There are no controls in the service areas.

Continue on **page 62** to start the afternoon leg of the event.
