*% = the percentage of the total distance of special stages

APPENDIX V – GPS tracking and SOS phone Nr.

1. Instalment of the GPS tracking system

System GPS for tracking is obligatory to install due to safety reasons.

The system must be installed as follows:

- **Red wires** need to be connected to a constant source +12V and **black wires** to the chassis or negative pole on the battery.
- The device needs to be attached with plastic ties to the roll bar in the upright position (number up).
- Inspection of instalment and operation will be checked at the scrutineering checks.
- If the crew needs help in case of the accident the button marked **SOS** must be pressed!

For non-compliance with the installation instructions, due to which the Miro GPS device (incorrectly connected +/-) was replaced or by returning the damaged device, the fee is charged 100 € in cash and immediately paid to the operator of Mirea GPS.
