## Technical Requirements - Solo Dance

### **IMPORTANT INFORMATION**

Skaters may only compete in one Championship in each season. Therefore, a skater who enters the British Adult Championships is not eligible to skate in the British Solo Ice Dance Championships, or vice versa. For the sake of clarity, however, there is no restriction on skaters participating in Open Competitions in both Adult and Solo Dance categories.

The BIS Ice Dance TAC are still waiting for release of the ISU international solo dance criteria, upon which the national solo dance criteria will be based. The adult solo dance criteria is based upon the national solo dance criteria. Therefore, this criteria is subject to change.

## 4 Categories: Pre Bronze, Bronze, Silver and Gold

Skaters may enter only 1 category (i.e. Pre-Bronze, Bronze, Silver or Gold) within each segment of the Championship. They are however free to choose the level of each segment individually within the standards listed. For example, a skater may choose to enter a category of pattern dance and a different category in free dance, based on their ability.

In case of ties in the Pattern Dance the TES will decide the outcome.

Pre-Bronze and Bronze will have no key points. Silver and Gold will have key points.

## CATEGORIES OF DANCE EDGE ELEMENTS

### Short Edge Element

A Short Edge Element is a movement where the skater must maintain a continuous sustained edge (one curve) in any selected position. A Short Edge Element must be sustained in position for at least three (3) seconds to be considered for level, but not more than seven (7) seconds.

### Combination Edge Element

A Combination Edge Element consists of two Short Edge Elements performed consecutively that progress on two separate curves to form a serpentine-like (S-shaped) pattern. The short edge element on each lobe must be sustained, in position, for at least three (3) seconds to be considered for level, but a Combination Edge Element may not exceed twelve (12) seconds in total. A change of position is not required for each part of the Combination Edge Element. A turn of no more than half a revolution is allowed between each Short Edge Element (except when attempting a twizzle as a “difficult turn as a connecting step” extra feature). A change of foot is permitted between each Short Edge Element with no more than 2 steps\* between each part. A turn on the entry or exit is permitted. The primary focus is on the quality of edge for each part, and the secondary focus is on the positions attained.

\*If there are more than 2 steps, or more than  $\frac{1}{2}$  revolution, (with the exception of the twizzle as a “difficult turn as a connecting step” additional feature) between each part of the Combination Edge Element, it will be called as two Short Edge Elements and occupy two boxes

#### A. Spirals in varied positions or an Attitude

a. A Spiral is a position with one blade on the ice and the free leg (including knee and foot) are higher than the hip level. Spiral positions may be classified according to the position of the free leg (extended to back, sideways, in front, split, etc.) An Attitude, a pose on one leg with the other lifted in back, the knee bent at an angle of ninety degrees and well turned out so that the knee is higher than the foot, is also considered a Spiral Type Edge Element.

#### B. Crouch in varied positions

A two-footed movement in which a skater travels along the ice with two knees bent (thighs at least parallel to the ice) or with one knee bent (thigh at least parallel to the ice) and one leg extended to the side, back or front.

A Shoot the Duck on one foot with the skating leg in a bent position and the skating thigh at least parallel to the ice with the free leg directed forward parallel to, and off the ice,

\*Note: Inside Spread Eagles in a full crouch will be considered a Crouch Type Edge Element and an Outside Spread Eagle in a crouch position will be considered as an Outside Spread Eagle Type Edge Element.

#### C. Spread Eagle

- A two-footed movement in which a skater travels along the ice with one foot on a forward edge/ tracing and the other on a matching backward edge/tracing on the same curve. Only a Spread Eagle skated on an outside edge will be considered as an Edge Element when performed as a Short Edge Element. A Spread Eagle skated on an inside edge will only be considered as an Edge Element when performed as a crouch Type or the second part of a Combination Edge Element

#### D. Ina Bauer

- A two-footed movement in which a skater travels along the ice, on a curve, with one foot on a forward edge/tracing and the other on a matching backward edge/tracing on a different but parallel tracing.

#### E. Hydro blade movements

- A movement done almost level with and parallel to the ice. The core of the body must be clearly positioned away from the vertical axis. No other part of the body other than the boot of the free leg is allowed to touch the ice.

### DEFINITION OF SOLO CHOREOGRAPHIC MOVEMENTS

Choreographic Spinning Movement: Can be performed anywhere in the program, A continuous spinning (rotating) movement with at least 3 full rotations which may be stationary or travelling The following requirements apply:

On two feet or, alternate feet or, one foot and one knee / boot (but not two knees)

If a skater performs a pause within the first three (3) rotations of the spinning movement, the movement is considered broken and will not be confirmed by the Technical Panel. - Can be moving or stationary

Choreographic Sliding Movement: Performed anywhere in the program, during which the skater performs a controlled sliding movement on the ice. The following requirements apply:

Continuous controlled sliding movement on any part of the body for at least 2 seconds.

Controlled Sliding on 2 knees or any part of the body will not be considered as a Fall/Illegal Element by the Technical Panel during this element.

Sliding Movement which finishes as a stop on 2 knees or sitting/lying on the ice is identified as a Choreographic Sliding Movement and a deduction for Fall/Illegal Element is applied.

Performing basic lunge movement will NOT be considered as a Choreographic Sliding Movement.

## Technical Requirements – Artistic Skating

### General Requirements for Artistic Skating

The artistic events consist of programs judged only on the basis of the Program Components:

- Composition
- Presentation
- Skating skills

See ISU Communication 2494 III General Technical Rules in Single & Pair Skating and Ice Dance (Rule 504 para 3a) for a detailed description of Program Components.

There will be no technical panel and no technical mark given. The points for each Program Component are multiplied by a factor of 1.0. Falls are not subject to a deduction but may have a negative impact on the Program Components.

The Artistic competition is an athletic competition that is intended to allow skaters to demonstrate their skating ability as defined by the three program components of the ISU judging system. Credit for the required technical elements is based solely on the ability of such movements to enhance the component score. Credit will not be given for their technical difficulty.

The program must be developed through skating skill and quality rather than through non-skating actions such as sliding on one knee or excessive use of toe steps. The skater/pair must not remain in one place for more than five (5) seconds. The Program and time clock will start with the first movement by the skater/pair.

Any technical element exceeding the maximum number as set forth below, will be judged as an illegal element (1.0 deduction). If the minimum required technical elements are not included, a deduction for a “missing element” of 1.0 will be made. The Referee is responsible for such deductions.

Clothing and make-up must be modest, dignified and appropriate for athletic competition – not garish or theatrical in design. Clothing may, however, reflect the character of the music chosen. Clothing must not give the effect of excessive nudity. (ISU Rule 501)

**This is NOT a theatre-on-ice, showcase or spotlight event. Theatrical costumes and make-up will be penalized by a deduction: -1.0 per program. Props and accessories may NOT be used in any part of the artistic programs. Use of props will be penalized by a deduction: -1.0 per program.**

Any item that is held in the hand or removed during the performance is considered a prop. Thus, for example, a hat worn throughout the program is not considered to be a prop, but if it is intentionally removed during the performance it is considered a prop. Objects on the ice, thrown in the audience, placed on the boards or on the judges table are not permitted. Costumes that contain particles that may mar or

leave anything on the ice surface (feathers, boas, excessive beading) are considered unsafe and are not permitted.

The decorations on costumes must be non-detachable. Part of the costume or decoration falling on the ice will be penalized by a deduction: -1.0 per program. The deduction for inappropriate clothing or make-up props and accessories (1.0) will be determined by a majority of the judges and the referee.

Illegal elements:

- Somersault type jumps
- Laying on the ice and prolonged and/or stationary kneeling on both knees on the ice.

The warm-up duration is four minutes for all Artistic Free Skating and Pair Artistic Free Skating events.
