Instructions: DO NOT START CARS UNTIL YOUR CAPTAIN GIVES YOU THE OK TO DO SO.

In the contact info above write down how we can contact you at the rally. A Cell phone number, hotel location, Ham Radio call sign, etc. will be helpful in case there is something that needs further explanation.

Look at the Ideal Start Time on the competitor's timecard. If that time has not passed and you are cleared to start cars, write it in the Actual Start Time **on the timecard and on the log**. If it has passed, assign the next possible minute. Then, assign the next sequence number and place on the timecard and also write that number on the log. It is important that every car be given a number in the correct start order. This is how the finish crew will know if a car is missing.

If a car does not start on their actual start time indicate this in the notes section. **NOTE IF THIS IS DUE TO COMPETITOR CHOICE OR BY ORDER OF THE CONTROL CAPTAIN.** Competitors may choose to leave the start line late, however they still receive their original start time and must leave the line within their designated minute or face exclusion from the event. Also note if a competitor leaves prior to their "go" signal, a time penalty is assessed, so note that on the log. The notes section can be used to indicate any discrepancy, unusual circumstance, or competitor reports noted by the competitors or control workers.

If a stage is stopped, your captain will tell you so. DO NOT assign any more start times until you are told to continue.
