4. ENTRIES AND INSURANCE

4.1 Entry procedure

Those who wish to take part in the 15 Rally Show Santa Domenica 2025 must fill out the [Entry Form](#) published at rssd.hr (Competitors section) and send it duly completed before the closing date for entries.

The closing date for entries is **12 November 2025 - 24:00**.

The received Entry and paid Entry fee are necessary for inclusion in the Entry List.

An Organizer without prior timely obligations is not obliged to assign a crew to the Entry List.

The crews (driver and co-driver) who wish to participate will be allowed to compete without possessing their National Automobile Federation License.

In contrast, a valid driver's license is mandatory for all drivers.

Participants without a valid driver's license can participate only as co-driver members of the crew.

The above options are not applicable to drivers under 18 or over 60.

Drivers aged 16 to 18 on the start day of the competition (21 November 2025) will be allowed to compete only if they possess their National Automobile Federation License. They must also provide a public notary document (which permits participation in Autosport) notarized by their parents at Administrative Checks.

Participants aged 16 to 18 on the start day of the competition (21 November 2025) without possessing the National Automobile Federation License can compete only as Co-Drivers. They must provide a public notary document (which permits participation in Autosport) notarized by parents at Administrative Checks.

There will be a possibility of a double start (two different crews with the same car and the start of the same driver/Co-driver within two different rally crews), with a separate Entry Form and a separate fee for each crew.

4.2 Number of entrants

The number of entrants is limited to **145**.

115 + additional **30** for Priority crews who received Organizer's „wildcard“ invitations.

If more than 145 entries are received, the Organizers reserve the right to extend this number or decide which entries among the Non-Priority crews will not be accepted or transferred to the waiting list.

Crews with "wild card" invitations will automatically be included in the Entry List.

The organizer has the right to reject the application of a particular crew without giving reasons why it was done.

4.3 Entry fee

The Entry fee, which includes non-obligatory advertisements, is payable according to the table below as a voluntary contribution to the event's organization.

CLOSING DATE FOR ENTRIES: 12 NOVEMBER 2025 - 24:00	
Up to 12 November 2025	500,00 €
From 13 November 2025	700,00 €

Entry Fee for **junior drivers** (drivers under the age of 23) is **300,00 € up to 12 November 2025** or **500,00 € from 13 November 2025**.

Should the crew refuse non-obligatory advertisement by Organizers, the double Entry fee shall be applied.

Entry will be duly received only if the total membership fee is paid or if the organizer decides otherwise.

Evidence of payment should be sent to the organizer or shown at the Administrative Checks.

Organizers don't accept any liability towards entrants for injuries or property damages that might occur.

5. CARS AND SAFETY EQUIPMENT

5.1 Cars

As the competition runs entirely on roads closed to public traffic competition vehicles don't need to be registered.

For non-homologated cars with pre-charging (with a built-in turbocharger or mechanical compressor), the engine's volume (powered by gasoline) is calculated by multiplying the nominal volume of the engine with a coefficient of 1,7. For cars with precharged diesel engines, no volume correction is performed, only the nominal volume of the engine is taken into account.

The use of a turbocharger restrictor is optional, but it is recommended use.

Historic cars are all cars older than 25 years or cars whose homologation is older than 25 years.

Note:

- Cars that retain all key technical and safety characteristics defined in a valid or expired FIA homologation, including the structure and design of the chassis (regardless of the chassis serial number), suspension, engine, gearbox, drivetrain, and bodywork construction, shall be classified in their original FIA class, regardless of individual deviations in components or accessories that do not affect the basic technical compliance of the vehicle.
- Cars without FIA homologation are considered vehicles that have never been homologated by the FIA or that significantly deviate from the homologation's technical structure in several key areas, and shall be classified outside the homologated classes according to engine capacity.

*Volim
Samobor* 

Krasan je Samobor. Blizina s glavnim gradom daje mu čar ladanja kao Tiburu, Tivoliju, Versaillesu, Schönbrunnu, Winsdoru.

Okolina je sretna kombinacija gore i ravnice, polja i šume, vrta i prirode, rijeke i planine, sela i zaseoka, grada i ladanja. Samobor je jedno od najhrvatskijih hrvatskih mjesta.
