

GPS System Advice

The GPS system must be installed in accordance with Art.18.2 of 2025 FIA Regional Rally Sporting Regulations and Art.14 of the FPAK Prescrições Específicas de Ralis 2025.

AnubeSport will provide a GPS device (Stella Evo) to each vehicle during administrative checks, and the competitor is responsible for its installation using only the Stella installation kit indicated below.

AnubeSport technicians may install a back-up GPS device (Spica) in the right rear window.

Both devices will be removed at the end of the event (Parc Fermé). Competitors who don't reach the last time control must return both devices (not installation kit) to the Rally HQ before the publication of the Final Classification.

INSTALLATION KIT STELLA EVO (without Iridium)
